die folgende Rezension hilfreich. People make deals with the devil all the time Von T. Renzer Some think, that Bub is some strange kind of prehistoric missing link; others think Bub is a true demon and spawn of hell. Others call him the Devil. Bub was found in 1906 in Panama while building the Panama-Canal. He was buried sleeping in a capsule deep in the ground. President Roosevelt decided to bring the sarcophagus to the United States and today Bub (Beelzebub) is imprisoned deep in the ground under the desert of New Mexico. Today 100 Years later Bub is awoken now und a bunch of scientists is searching for his secrets. But not only scientists are here, there is also Father Thrist and Rabbi Shotzen Andrew Dennison is brought to the Dessert. He is a linguist and now awake, Bub speaks sometimes in a unknown strange language. Andy is here to try to translate. What suddenly becomes no more necessary because Bub begins to talk English. While Andy now is working on the hieroglyphs on the sarcophagus the Bub begins to manipulate the people and scientist around him. Every one of them seems to have a dark secret or some strong wishes for live and Bub suddenly will fulfill wishes if the let him out But what if he is really the Master of Lies? The Devil in persona? Where will this all end up? A nice book with a nice idea. 0 von 0 Kunden fanden die folgende Rezension hilfreich. difficult to put down Von Hoener, Birgit 100 years ago, something is found in Panama, and the US President at that time decides to keep it, hidden, somewhere in the desert. Now, 100 years later, the scientists researching that thing have to realise it is waking up... A handful of scientists in the underground research station, all with nothing to lose because of their past, will have to deal with this ... thing, now awake, and playing games with them... This book has everything a good supernatural horror story needs, likeable and not so likeable characters, a plausible plot, and a good narration style that makes you hesitate to put the book down. And the best? The end seemed to be open-ended, so I am looking forward, I hope, to more of this.

Kurzbeschreibung Thriller writer J.A. Konrath, author of the Lt. Jack Daniels series, digs into the vaults and unearths a technohorror tale from the depths of hell... 1906 - Something is discovered by workers digging the Panama Canal. Something dormant. Sinister. Very much alive. 2009 - Project Samhain. A secret underground government installation begun 103 years ago in New Mexico. The best minds in the world have been recruited to study the most amazing discovery in the history of mankind. But the century of peaceful research is about to end. BECAUSE IT JUST WOKE UP. When linguist Andrew Dennison is yanked from his bed by the Secret Service and taken to a top secret facility in the desert, he has no idea he's been brought there to translate the words of an ancient demon. He joins pretty but cold veterinarian Sun Jones, eccentric molecular biologist Dr. Frank Belgium, and a hodge-podge of religious, military, and science personnel to try and figure out if the creature is, indeed, Satan. But things quickly go bad, and very soon Andy isn't just fighting for his life, but the lives of everyone on earth... ORIGIN by J.A. Konrath All hell is about to break loose. For real.
