**Kurzbeschreibung**When Sylvia receives devastating news, she knows she has to leave her California home. While hiding away in the Baja Peninsula, living in a camper van, she meets a man with a similar dilemma. Both must avoid the spouses pursuing them, or be forced to return to the intolerable misery of their past. Will the sparks they feel for each other help see them through or only make their problems worse?

**ber den Autor und weitere Mitwirkende**Anneli Purchase has more hobbies and projects than she can pursue in one lifetime, but of them all, writing takes priority. Storytelling has been a part of her life since she was a child. Writing the stories is just another phase of the process. Traveling, camping, fishing, mushroom picking and birdwatching are her preferred pastimes when she is not writing. Anneli has lived on Vancouver Island, Canada, for most of her life. The island provides everything she needs for the activities she enjoys.
