Kundenrezensionen Hilfreichste Kundenrezensionen 1 von 1 Kunden fanden die folgende Rezension hilfreich. Intelligent mystery/fantasy about dimensional reality. Von Ein Kunde Funny, insightful character study and mystery

placed at Epcot Center in Walt Disney World. Dreher makes even Micky Mouse seems spooky when she delves into the hidden tunnels at WDW that are packed with deceptive turns, tricks of sound and sight, and may be the gateway to another universe. Dreher's regular characters are enriched with the addition of some new ones. A must read for Stoner fans and all who enjoy a perfectly crafted work.

KurzbeschreibungAll your favorite characters... business partner Marylou, eccentric Aunt Hermione, psychiatrist, Edith Kesselbaum, and of course, devoted lover, Gwen, all travel for a vacation in the Magic Kingdom. Great fun, till Stoner starts receiving mysterious phone calls and Marylou is held hostage in an underground tunnel where they journey from Disney World to the OtherWorld.
