Von Katy Munger : Out Of Time (Casey Jones mystery series Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Out Of Time (Casey Jones mystery series Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen3 von 3 Kunden fanden die folgende Rezension hilfreich. Evanovich Fans, Take Notice of Casey Jones!Von Ein KundeOut of Time is Katy Munger's second entry in the gut-

busting and suspenseful Casey Jones mystery series. In the sequel to Legwork, Jones is in search of the answers that might prove the innocence of a young woman on death row. Unfortunately, the woman was convicted several years ago and her execution date is only a few weeks away. Although Casey quickly becomes convinced of the young woman's innocence, her efforts to find proof to clear her name are challenging. Casey slowly uncovers evidence that leads her to consider several possible suspects for the crime - a conspiracy involving several law enforcement officials. Even more alarming, one of those suspects is Bill Butler and that puts a crimp in Katy's plans for Bill. Unfortunately for Casey, her client is running out of time - and as Casey puts herself straight in the line of fire, so is she. Set in North Carolina, the Casey Jones series is not only characterized by a feisty heroine and plenty of action, but by a distinctly southern feel. And fortunately for readers, all of these elements are presented with Munger's devastating sense of humor. I mean, how often does a suspense story regularly make mention of Krispy Kreme doughnuts? (Needless to say, those of us who live or have lived in the south can sincerely appreciate Casey's weakness for this delicacy.) If you haven't read the first Casey Jones mystery, *Out of Time* is easily read as a stand-alone novel. But I'll bet you a couple of moon pies that you'll be racing out to the bookstore to get a copy of *Legwork* soon after you've finished this book.

1 von 1 Kunden fanden die folgende Rezension hilfreich. Great Read! Von Ein Kunde This is the first of the Casey Jones book I have read. Casey is a rather brash, in-the-face kind of person whom I would love to have for a friend. She sets her mind on something and goes after it, no matter what the consequences. I found the story well-written and especially liked the ending where Munger brings you up-to-date on all of the main characters. I don't like to read series out of order and wish I had read "Legwork" first; it will definitely be second.

Both *Legwork* and *Out of Time* were books that I was unable to put down. The main character, Casey Jones, is someone to relate to and to cheer on. She's persistent and savvy and makes me laugh. She has guts and if she epitomizes the True Southern woman, I sure wouldn't mind knowing her. The story flows well, keeps your constant attention and makes you want more. I am especially appreciative of the final chapter where events following the solution to the mystery are explained in matter of fact manner by Casey. I want more Casey Jones...and SOON!!

Kurzbeschreibung Meet Casey Jones -- an unlicensed, no-nonsense private detective who hides 160 pounds of muscle with an in-your-face femme fatale style. She's bold, she's bad and, most of all she's nobody's fool. Underneath her wisecracking 100% Southern exterior, there beats a 14-carat heart with a definite soft spot for life's losers. With the brains to take on any challenge and the guts to impose her own brand of justice, Casey Jones has what it takes to be your best friend-or your very worst enemy. This time around, Casey takes on a case that batters her once-sturdy body and threatens to expose her closest held secret. When her investigation into the case of a woman on death row sets her at odds with her hometown police force, Casey quickly learns the true blue friends aren't necessarily clad in blue. One by one, bodies begin to fall, while Casey holds her ground. She must race to uncover the truth before more people die and before she takes the rap for their murders. With the help of an unlikely pair of bloodhounds and even more unlikely allies, Casey battles back to reclaim her clients life and her own, and to set a trap for a very clever killer before time runs out.

Autorenkommentar Smart asses of the world -- unite! If you like your humor with an edge and think that too many mysteries these days are fuddy-duddy and boring, then give my book a try. It can give you a fresh look at the South the way it really is (forget all that corn-pone crap) and you'll get a mystery and some laughs along with it. Try this book if you like your women strong and sassy and appreciate wry social commentary. Skip it if sarcasm turns you off or if you're offended by jokes about sex and the very occasional dirty word (there are no graphic scenes about sex or violence, however). As always, I'd welcome your

comments via e-mail when you're done reading "Out Of Time". If you hurry, you can even influence my next Casey Jones, due out in the summer of 1999. Also, I have an upcoming 60-Second Mystery on the avonbooks.com website, so check it out if you want more Casey. Enjoy! -- Katy Munger
