empfehlenswerter Debutroman Von MIA Ein Lehrer an einer katholischen Schule wird ermordet. Ausnahmsweise begleitet man weder einen Schler oder eine Gruppe junger Leute, noch einen Polizisten o bei der Suche nach dem Mrder, sondern einen 70jhrigen Lehrer. Der lsst sich dabei von seinen Lieblingswerken inspirieren, die teilweise auch nicht-Muttersprachlern gelufig sein drften. Auch hat mir sehr gut gefallen, dass beim Lesen keine Ungeduld oder Langeweile entsteht. Sobald eine spannende Frage im Raum steht, wird diese ohne Rcksicht auf dazwischenliegende Ereignisse, die der Lsung des Rtsels nicht zutrglich sind, geklrt. Somit macht das Lesen Spa. Trotzdem kann man das Buch ab und an zur Seite legen, da es immer wieder kurze Momente (wir reden da von 1-2 Stzen) gibt, in denen man nicht weiter wei. Insgesamt leichte, gute Unterhaltung, die einen aber auch nicht um den Schlaf bringt. Fr den Preis also perfekt.

Kurzbeschreibung In his long career as an English teacher at Holy Trinity High School, Michael Bishop felt that he was as good at reading people as he was at reading books. That all changes when he discovers the body of the schools highly successful but universally disliked football coach, Albert Zappala. Even more disturbing is the news that the coach, whose net worth was in the millions, was murdered. Suddenly, everyone is a suspect, including students, colleagues, and even the Sisters who run the school. Bishops skill in reading people is put to the ultimate test. Like Captain Ahab searching for the answers in his pursuit of the white whale, Bishop searches into the dark past for the key that will unlock the mystery. Will the truth destroy his belief in the basic goodness of man?
