This Black Lace novel has an actual plot, with characters you care about. The main female character is pretty selfish, but even she grows on you. She and her boyfriend steal money from someone you DON'T want to mess with. The storyline follows their adventures as they try to escape the long reach of his influence. Plenty of spicy action along the way. If you enjoyed "Searching for Venus", "A Secret Place" or "Dramatic Affairs", you'll like this book.

Kurzbeschreibung
When Californian Nadine has her allowance stopped by her rich uncle, she becomes desperate to maintain her expensive lifestyle. She joins forces with her lover Mark, and together they conspire to steal a vast sum of money from a successful but flashy businessman. But sexual stakes rise when Nadine and Mark try to put the blame on their target's own girlfriend and make their escape. Naturally, their getaway doesn't go entirely to plan, and the situation escalates when they're pursued across the desert and into the casinos of Las Vegas. Full of sexual intrigue, this action-packed erotic novel is reminiscent of film noir.
