because of the really unique and interesting description of Survivor meets Bachelorette. The cover arose my curiosity and after reading this "Paradise Island" had my attention. It was a really unique read and a reading experience you don't want to miss. I loved how the author described the main characters development, following the loss of his wife. Not only does it have a lot of tension but also combines this tension with comedy elements. A very fun and refreshing read. I have never read anything like this but can highly recommend it.
