Great SequelVon Marco WegnerLiked this book even better than the first one in the series "Legacy Code". What's been missing in that book has been fixed here. Absolutely great, and therefore five stars.0 von 1 Kunden fanden die

folgende Rezension hilfreich. A book to my taste Von Sascha Weinmann I enjoyed this book very much. I read it in a week. What's more to say? Please hurry with the next one!

Kurzbeschreibung Three hundred years ago, Earth suffered a mass extinction event. The last humans fled to the stars in search of a new home. In the darkness, they fought to survive. Now the fleet decays, and their hope of finding a better world is fading. Tadeo Raines knows what they say about him. Its all lies. But lies are better than the truth. He broke the rules once and swore hed never do it again. Now traitors plot against the fleet, and he's tasked with hunting them down and stopping them. Permanently. Brutal conspiracies and devastating betrayals threaten to fracture the fleet. And the colonists have forgotten the most important lesson their ancestors swore to remember: It only took one wrong choice to destroy life on Earth. Will the descendants make the same mistake? Legacy Code is a suspenseful and dark genetic engineering science fiction series that has earned five star reviews from fans of some of the best sci-fi and fantasy books like Hunger Games, Divergent, and Red Rising, and has been compared favorably to Wool, 1984, and the new Battlestar Galactica. What readers are saying: "This is a very good story that has your heart pounding as you turn the pages. Intrigue, nefarious plots, twists and turns around every corner - great series, even if you're not a fan of science fiction." "From the moment I read the first paragraph of Paragon, up until the last sentence, I was enthralled. Non-stop, on edge, exciting action. I honestly couldn't put a fault on this one, I loved all of it, including the song! The Fractured Era series is still up there amongst my favourite novels of the year." "I love all of this author's books. I have read many post-apocalyptic and dystopian tales and this is different from all the rest. She always keeps me guessing. My only complaint is she doesnt write them fast enough!! I believe this is the first 5 star rating I've ever given."
