Von Magritte Carly and Rio are neighbors and best friends since they are living wall to wall from one another. They are also attracted to each other, think about each other but none of them wants to lose their friendship. Moreover they are in relations, the moment is not right until it is right. Until they don't want to miss each other out. As their connection starts before the book and since the book is only 73 pages long the story and their connection is quiet

believable. The writing is really nice, the rhythm as well and the story is interesting but not very different from reality or from something I have already read. I hope you'll enjoy the read. I did MBTM

Kurzbeschreibung Neighbor. Friend. Lover. At least that's what Carly Wagner wanted Rio Reyes to be. She'd settled for two out of three for almost a year and it just wasn't enough. Not anymore. When Rio proposes a bet of the sexual variety she knows it's out of character and he's not really serious, yet she can't resist. The payoff could mean finally getting her hands on the gorgeous firefighter she's drooled over since she moved in next door. The timing had never seemed right for him and Carly, but that hadn't stopped Rio from imagining wild and wicked things about her. It had been a joke sort of but Rio's shocked when she takes him up on the dumbass bet. Now he's in a world of hurt, because regardless of who wins, he might be crossing a line he never thought he would, and jeopardizing a friendship that means more to him than anything.
