Von Amy J. Fetzer : Perfect Weapon before purchasing it in order to gage whether or not it would be worth my time, and all praised Perfect Weapon:

Kundenrezensionen Hilfreichste Kundenrezensionen 1 von 1 Kunden fanden die folgende Rezension hilfreich. A Winner For Sure! Von Kristi Ahlers Ms. Fetzer has penned another hot Marine hero and one feisty heroine that will entertain readers. Her fast paced, action packed romance is a thrill a minute ride and will leave the reader fully satisfied by the end of the book. Dr. Sydney Hales life is forever changed when a terrorist attack on a top secret lab she

works in is infiltrated. How did these people know that the lab existed and why did they attack what were they after? On the run for her life and not knowing who to trust she reluctantly follows Captain Jack Wilson. He saved her life once before and he makes her feel safe she throws in with him. Together they are going to untangle the lies and betrayals and hopefully stay one step ahead of a killer. Jack is unwittingly pulled into a nightmare that not even he could imagine. Three of his friends and fellow Marine team members are brutally executed while on a job for the department of Fish and Game. He wants answers and he wants them yesterday! But, the more questions he asks the more confused and convoluted the situation became. He has kidnapped the one woman that seems to have the answers he needs and the motivation he needs. She has a killer on her tail and has no idea who to trust. This problem has high reaching ramifications almost to the level of the President. When he gets to know Sydney the more he likes her and the more he realizes he will do what he must to keep her alive. Will they be able to figure out who is behind the terrorist attack before one of them ends up dead? This was an incredibly fast-paced read. Plenty of action which fed the attraction between these two very dynamic characters. Ms. Fetzer has a talent for creating wonderful heroes the reader will fall in love with. I eagerly anticipate her next effort and can only hope that Gabe Cisco might just be the hero.

It was neither too brutal, nor was it a flat story without suspense or chilling moments. Both, the hero and heroine, had their strengths and weaknesses and shared an emotional bond. Although they didn't trust each other at the beginning (at least not entirely), they built a trusting and caring, as well as supporting, relationship (which I like in books) and fought together against their enemies.

Kurzbeschreibung Danger In Plain Sight Stay alive. That's all Dr. Sydney Hale can think. In one terrifying minute, her life was turned upside down. Now, the cops think she's a murder suspect, the government wants her to come in, and somebody will do anything, including kill, to get the knowledge only she has. Alone, she'll never survive on the run. What she needs is a perfect weapon, and Marine Jack Wilson just may be the answer to her prayers. Jack has always been clear about who the enemy is, but now, he's not sure. Why is Sydney Hale the only survivor of a government lab breach? What secrets is she hiding? Why is the government lying to him? Jack intends to find the answers to all his questions, but first, he has to keep Sydney alive long enough, and if there's anything this Marine knows, it's how to keep moving and fight back. What he doesn't know is what to do about the fierce desire she awakens in him. With no one to turn to but each other, sexual tension explodes into a passionate hunger and a tender love neither can fully trust--or live without. And with the stakes rising, Jack and Sydney will make their stand, gambling everything they have on a choice that could save--or destroy--them both. . .

From Booklist Dr. Sydney Hale charms a marine guard into letting her go outside her deeply buried, government-financed laboratory for some fresh air, not realizing that her lab is about to be attacked by terrorists who are after her top-secret antidote to deadly sarin nerve gas. In the attack, four marine buddies on leave to help thin the local deer population for Fish and Game get caught in the cross fire. The only survivor, Captain Jack Wilson, vows to get the guys who did this, and after eavesdropping on NSA agents, realizes that Sydney Hale is the key. The NSA whisks her off to a safe house, but Jack kidnaps her and they team up to get the bad guys, with the security of the United States hanging in the balance. This is more thriller than romance, but Sydney does fall for Jack, and Fetzer provides a one-sitting, nonstop, thoroughly enjoyable read. Mary K. Chelton Copyright American Library Association.
