Von Alison Morton : PERFIDITAS (Roma Nova Thriller Series Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised PERFIDITAS (Roma Nova Thriller Series Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A thrilling sequel, possibly even better than the first bookVon Blue DolphinFirst, I must apologize for not writing in German. However, since all my German friends speak English beautifully, I hope my comments will be useful to

anyone who can understand them. A worthy sequel to the excellent INCEPTIO. The story continues, still narrated by our heroine, Karen Brown, who has now reverted to her birth name of Carina Mitela and has completely embraced her new life in the fascinating country of Roma Nova, where a tough matriarchial society has endured since its founding. Seven years have passed, during which Carina and her husband Conradus have both enjoyed considerable career advancement in their professional roles with the PGSF (Praetorian Guard Special Forces), an elite organization resembling a combination of the FBI, CIA and Special Forces. Conradus has just been made Legate (Chief of the PGSF) while Carina is Strategy Section Head with the rank of Captain. Their marriage is solidly built on mutual love and respect but their working and social life is complicated, to say the least: Conrad is her boss at work, but Carina is junior head of the prominent Mitela clan, and so his social superior. With the arrival of their three children, Helena (Carina's beloved cousin) has assumed the role of private tutor, while Aurelia remains the staunch head of the family. When a fresh crisis forces Carina to resurrect her undercover persona of Pulcheria, a deadly conspiracy surfaces which threatens the very foundations of Roma Nova's power base and the Mitela family, in particular. The strong characterisation helps with an unusually large cast of players but these are demanding books, where the reader is expected to pay attention and follow the action closely. As some time had passed, I re-read INCEPTIO just before starting this sequel, and just as well! There is so much going on, and so many twists and turns, that a casual perusal of the story would completely miss the delightful immersion that is the inevitable consequence of reading the Roma Nova saga. As in the first book, the blend of historical background with the glorious invention of the Roma Nova world is accomplished with great skill and excellent pacing. I found myself wanting to consult a map to determine exactly where Roma Nova might be, before remembering that it exists only within these pages. Surely I'm not the only one to think that these stories would make thrilling movie material? I thoroughly enjoyed PERFIDITAS and the deep plots and convoluted adventures pushing the story forward. However, I was slightly disappointed to find that the charismatic Conradus seemed to be in a constant state of fury and frustration, while Carina's death-defying efforts on behalf of Roma Nova were consistently dismissed with churlish ingratitude by her professional colleagues. With any luck, this will change in book three, which I hope to read soon as I am now well and truly addicted.

Kurzbeschreibung "Fast-paced, well-written and full of angst, PERFIDITAS was a very entertaining read!" History Undressed Captain Carina Mitela of the Praetorian Guard Special Forces is in trouble one colleague tries to knife her and another sets a trap to incriminate her in a conspiracy to topple the government of Roma Nova. Founded sixteen hundred years ago by Roman dissidents and ruled by women, Roma Nova, the scene of this action adventure story, is in meltdown. Proscribed and operating illegally, Carina risks being terminated by both security services and conspirators. Seeking help from a not quite legal friend could wreck her marriage to the enigmatic Conrad. Betrayal mounts on betrayal. Is Carina strong enough to choose between being a great criminal or a great counterspy, and between two men? And can she save her beloved Roma Nova and her own life in making those choices? A gripping alternative history adventure, a conspiracy thriller with a Roman historical fiction flavour and strong female characters leading the action. Surely I'm not the only one to think that these stories would make thrilling movie material? Top 500 reviewer B.R.A.G. Medallion honoree finalist in 2014 Writing Magazine Self-Published Book of the Year Pressestimmen "Alison Morton has built a fascinating, exotic world! Carina's a bright, sassy detective with a winning dry sense of humour. I warmed to her quickly and wanted to find out how she dealt with the problems thrown in her path. The plot is pretty snappy too and gets off to a quick start which made it easy to keep turning the pages. There are a fair number of alternative historical fictions where Rome never disappeared, but for my money this is one of the better ones." - Simon Scarrow, author of the Eagle (Macro and Cato) series "I can't resist an alternative history and Alison Morton writes one of the best. Powerful storytelling, vivid characters and a page-turning plot makes Alison Morton's PERFIDITAS a must read." - Jean Fullerton, author of the historical East London novels "Pure enjoyment! A clever, complex plot set in the beguilingly convincing fictional country of Roma Nova. Scenes and characters are sometimes so vividly described that I felt I was watching a movie. This compelling tale rendered me inseparable from my copy right up to the last turn of the page." - Sue Cook, writer and broadcaster Kurzbeschreibung "Fast-paced, well-written and full of angst, PERFIDITAS was a very entertaining read!"
