**Von Stephen King : Pet Sematary (English Edition)** before purchasing it in order to gage whether or not it would

be worth my time, and all praised Pet Sematary (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 1 Kunden fanden die folgende Rezension hilfreich. Mein absoluter Liebling von KingVon Doris HenzgenNachdem ich diesem Roman schon etliche Male in Deutsch gelesen habe, sollte es dieses mal die Originalfassung sein und wieder einmal bin ich restlos begeistert. Selten habe ich einen so emotionalen Horrormoman gelesen. Er erschüttert auch nach dem zigmalsten Lesen immer wieder. Fr zartbesaitete Leser mit Vorsicht zu genieen ;)4 von 5 Kunden fanden die folgende Rezension hilfreich. Oz The Gweat And TewwibleVon DawnOkay, okay, Pet Semetary is one awesome book. One of Stephen King's best works. I know thats what everybody says on every other book he's wriiten but i really mean it. The story can really spook the heck out of you, make you laugh, or cry.The novel is about an M.D named Louis Creed who decides to work at the medical university in Bangor Maine. So he and his family pack up and move there from busy Chicago. There they find a great danger-- the roaring highway and those orinco semi trucks and they find a mysterious path that leads to a place called Pet Semetary. A place where animals that the road has taken are buried. What lies beyond the deadfall of the the place is an old Micmac Indian burial ground where the dead can rise... The story is mainley about Louis's obsession with the graveyard but I think that the story also tries to focus on the relationship between Louis Creed and his 80 something year old neighbor Jud Crandall.If you do decide to read the book I strongly suggest that you not watch the movie first. It is not very good and will ruin alot of the key parts of the novel for you. The movie is short and gets into too muck sub plots of the novel and lacks characterization.The novel takes it's time in getting down to business. (it's over four hundred pages long.) That leaves alot of room for you to fall in love, (or hate) some of the characters.It is filled with death, love, ressurection, humor, and so on. I reccomend everyone read it.2 von 2 Kunden fanden die folgende Rezension hilfreich. Brrrrrrr!Von Ein KundeStephen King is known to be the scariest writer of this century. We all know Misery, Carrie, Shining and...Pet Semetary! The people who saw the movie will certainly more appreciate this terrifying book about a doctor and his family being haunted by ghosts. When Louis Creed, a young doctor, and Rachel, his wife mother of two children, arrive at their new house in the Maine(is there one Stephen King book that doesn't takes place in the Maine?!),they reaaly don't know they live behind an old Indian cemetary. But when they begin to make strange nightmares and to see horrific ghosts(the people who saw the movie certainly remember of Zelda, the sick and monstrous sister of Rachel), they realize they're in deep trouble! Certainly one of King's best, Pet Semetary will scare you and interest you. You can't stop reading until the last page. And on warning : don't read it at night 'cause you'll never sleep! Excellent!

KurzbeschreibungDont miss the classic tale from King of Horror and #1 New York Times bestselling author Stephen King, described by Publishers Weekly as the most frightening novel Stephen King has ever written.When the Creeds move into a beautiful old house in rural Maine, it all seems too good to be true: physician father, beautiful wife, charming little daughter, adorable infant sonand now an idyllic home. As a family, theyve got it allright down to the friendly cat. But the nearby woods hide a blood-chilling truthmore terrifying than death itself...and hideously more powerful. The Creeds are going to learn that sometimes dead is better..deRenowned for its superior productions, BBC radio may have outdone itself by adapting Stephen King's Pet Semetary to audio. A clamorous cacophony of talking, whining, whistling, and howling, Pet Semetary is a quick, entertaining earful for those who don't have other auditory distractions to contend with, such as a car full of talking whining, whistling, howling children. However, the melodramatic prose marries well with the acting; such is the case when one reader--whose voice bears an uncanny resemblance to Kramer's from Seinfeld--tells another about the effects of the Pet Semetary: "Heroin makes junkies feel good when they put it in their arms, but all the time it's poisoning their mind and body--this place can be like that and don't you ever forget it!" (Running time: three hours, two cassettes)PressestimmenKing can make the flesh creep half a world away (The Times)King can make the flesh creep half a world away (The Times)
