Von Dean Koontz : Phantoms before purchasing it in order to gage whether or not it would be worth my time, and all praised Phantoms:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Not the bestVon ChrisFirstly, I wish authors would give warning that they are making use of demonic or satanic related

themes right at the beginning of the book. A short foreword stating this would be perfect. Warning: This book does make use of such themes. It doesn't bother me too much, but it is a sensitive topic for some. I felt after around the 80% mark of the Kindle edition "I wish this would end". The story line is not that bad, but it drags out and there are so many different characters that it's sometimes quite challenging to keep track of who is who in the book. Definitely not recommending this as a "must read".

Von ExpatOk, I know you saw the movie Phantoms and thought, "Oh God what a horrible piece of trash, I'm glad I never read the book." But there you'd be wrong. This book is, in my opinion, one of Koontz's best pieces of work. He masters tension and dialogue brilliantly enough to keep you turning page after page to the end. I love a good scare and this book managed to do it for me. So if you want to try a Koontz novel, or you're an avid fan and haven't read this book yet, then I highly suggest you give this one a try. Cheers!

3 von 3 Kunden fanden die folgende Rezension hilfreich. One of Koontz's stronger works Von Anon This is definitely a worthwhile read. With some books I love Koontz, and with others I can't stand him (Intensity--loved him; Fear Nothing--Couldn't stand him.) This is definitely a loveable book. He took an interesting take on the history of disappearing cultures (Roanoke colony, Bermuda Triangle, Myan City, etc.) This book definitely has its creepy moment; the two that got under my skin were walking down an alleyway with the feeling of being watched from above and below, and the "sink" scene. Don't judge this novel by the horrible movie that was made based on it; that would be far less than fair. Hope you enjoy it as much as I did.

Kurzbeschreibung Phantoms is gruesome and unrelenting Its well realized, intelligent, and humane. Stephen King They found the town silent, apparently abandoned. Then they found the first body, strangely swollen and still warm. One hundred fifty were dead, 350 missing. But the terror had only begun in the tiny mountain town of Snowfield, California. At first they thought it was the work of a maniac. Or terrorists. Or toxic contamination. Or a bizarre new disease. But then they found the truth. And they saw it in the flesh. And it was worse than anything any of them had ever imagined....

de The lights are on in Snowfield, California, a cozy ski village nestled in the Sierra Madres, but nobody seems to be home. When Dr. Jenny Paige returns to the small town, she finds tables set for dinner, meals being prepared, and music playing in living rooms, but there's no trace of the people who put the water on to boil or set an extra place for company at the dinner table. As she explores the town, Paige finds friends and neighbors felled by a mysterious force--the bodies show no visible signs of violence or disease, and no known plague kills victims before the ice in their dinner drinks has time to melt. But the deep quiet that surrounds her offers few clues about the fate of the town's inhabitants. Dean Koontz's Phantoms strikes fear in readers from the very beginning. The mystery deepens, paving the way for a chilling journey toward the truth. If you plan to catch the film version, starring Ben Affleck and Peter O'Toole, remember that you'll be experiencing this terrifying story in a dark theater. So bring an arm to grab!
