Von Trish Jensen : Phi Beta Bimbo before purchasing it in order to gage whether or not it would be worth my time, and all praised Phi Beta Bimbo:

Trish is BACK with a vengeance!!Von Deborah MacgillivrayAfter a dearth of writer Trish Jensen - no book since her Stuck With You, September 2001 for Dorchester Publishing - I am treated to two great Jensen efforts in one week! Without A Clue (Harlequin's Flipside) and now Phi Beta Bimbo from Dorchester. It's great to see this very talented, funny

writer back in print. This time Jensen asks the question - on the minds of women every where - who fares better in the workplace: the brassy bimbo or the plain Jane? Checking out if blondes really have more fun, Leah Smith decides for her doctoral dissertation for sociology to find out the bottom line. Trading in her mousy persona, drab brown hair and less than ample cleavage, she makes herself over into a bleached blonde, with a 'gravity-defying' chest. With mile-high spiked-heels and a miracle bra she takes on the question with 'hands on' determination. She hires on at Peachy Cosmetics with both personalities so she can get a real view of which one does best in the world of business. However, she doesn't realise Peachy Cosmetics is upset about recent leaks in formulae of their new cosmetics and has hired an security expert to plug those leaks. Mark Colson is the security expert who has been hired to ferret out evil-doers of corporate espionage and the newest employee of Peachy Cosmetics is his number one suspect. He quickly spots she is posing as two completely different women. Ditsy blonde or more academic brunette. He feels it will be a matter of time before he catches her red-handed. But in order to catch Leah, he will have to trade secrets... Jensen is so witty, charming and delightful, this book shines with her marvellous talent. It's great to have her back. Linda Howard was out of writing for a long spell at one point in her career and she came back to shoot to the top of her profession. I have a feeling Jensen will do the same!

Kurzbeschreibung "Fans of Susan Elizabeth Phillip's Nobody's Baby But Mine will go for this hilarious romp, too." Booklist Big blond wig. Do-me shoes. A bra that could serve as a floatation device. She's about to take her genius IQ for a walk on the bimbo side. Someone's pilfering company secrets at Just Peachy, a giant cosmetics firm owned by hunky Steve Smith. When he decides to do some undercover security in disguise as "Stephanie" Smith, his sister Leah, a sociologist working on her doctorate, grabs her own undercover opportunity to prove her theory that nerds stand no chance in the world. She interviews for a low-level security job first as "Leah the super-nerd" then as "Candi Devereaux," a stereotypical out-to-there bimbo. To her shock, security specialist Mark Colson hires both of her. Mark isn't fooled--Leah/Candi are obviously the same woman, a suspicious character, and quite likely the corporate thief. He'll stay very close to her. As for Leah, the highly unsettling and extremely irresistible Mr. Colson begins to rattle all her assumptions about what a man wants from a woman. It's about honesty . . . unfortunately. In the meantime, "Stephanie" has met his match in corporate rival Kate Bloom, who is determined to best the smart new woman in the company. And yet, Kate feels flustered by Stephanie's strangely masculine appeal Trish Jensen is the USA Today bestselling author of STUCK WITH YOU.
