Picked..... ein leben und lieben im ZwiespaltVon WuukieKann ein Mann mehrere Frauen lieben?Kann Frau einen Mann Lieben der mehrere Frauen liebt?Kann eine Frau mit anderen Frauen zusammen leben, die alle den gleichen

Mann Lieben?Knnen wir Leser diesen Mann lieben??Jettie Woodruff zeigte es uns.....

KurzbeschreibungIt started with a game, a very different computer game, and a desire to know a life so intriguing and different from my own. I had just started to venture out with my own work at my fathers private investigating firm when our paths crossed on purpose. My purpose. I never expected things to go the way they did. I never expected him to be so nice and handsome. I couldnt be number four. How could any woman love a man with more than one wife? Not only was it impossible, it was ridiculous. There was no way I was getting any closer. I was going to get in, dig around a little, and get out. Thats it. Does anything ever turn out the way we plan? Becker Coles wives were not the typical, obedient little housewives wearing aprons and submitting to him I had pegged them to be. They were cute, young and full of life. I loved them. All three of them. And somehow, I loved Becker too. Could I swallow the persona that society expected me to be and share him, or was this too much? Was I ready to be a part of this world? And if I wasnt could I just walk away?KurzbeschreibungIt started with a game, a very different computer game, and a desire to know a life so intriguing and different from my own.
