Von Sheralyn Pratt : Pimpernel (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pimpernel (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Nice romance, interesting plotVon SarahI received a copy of this book in exchange for an honest review.Romance is not usually my genre but I made an exception of the Pimpernel because of the novel's intriguing blurb and I was not disappointed.The characters are interesting and all have distinct personalities. The two main characters are of course

the most flashed out and Claire especially is a great protagonist to follow through the narrative. I don't know enough about OCD to decide whether the depiction is accurate, but I think it was a great choice by the author to write a main character with OCD who is at no point made fun of or belittled for her condition. While it does play a major role for Claire's character, it is not her defining feature. The romance seemed like a natural development, but it could have done with a little more fleshing out. But if there is a sequel, which I sincerely hope, there will be enough room for that. The fraud plot of the book was what really got me interested and I think there are lots of stories left to tell in the sequels and enough character growth to still explore. I would definitely recommend Pimpernel to readers who like a little action with their romance.

Kurzbeschreibung For centuries, the elite of the world have sought the Pimpernel everywhere. Some want to kill him, others want to hire him, but Jack Cavanaugh knows that the love/hate relationship comes with the job title. At present, Jack is trying to dismantle an investment scheme centered in Las Vegas, but "trying" is the operative word. It's been a month since he put the face of the scheme behind bars, yet the scam is still going strong. As Jack tries to uncover who has stepped in as the new head, what miniscule evidence there is all seems to point him back to Claire Ramsey, an introverted PhD student studying at UNLV. If ever there as an unlikely head of an investment scheme, Claire's it. She has a genius IQ, but from all Jack has seen, Claire's intelligence is as much a blessing as a curse when paired up with her acute OCD. Claire can barely make conversation with the cute guy down the hall, which makes it hard to believe she could be the charismatic salesperson who is getting international businessmen to invest \$550 million a pop. So what is Jack missing? What is the real story behind Claire Ramsey? And once Jack learns it, will he be able to walk away?
