HOT, HOT, HOT!!!!!!!!!!Von CC7Pretender--Having lost her fund-raising job after being unjustly accused of embezzling the multi-million dollar donation from the Summers Group, McCall Lindsey arrives at a borrowed beach house, takes two sleeping pills and passes out.Derek Summers has escaped to his beach house where a note from his friend sends him

next door to collect his birthday present. There he finds a luscious hooker, naked and sleeping on his friend's bed. Aroused by her delicious erotic dream, McCall is shocked when the next morning her dream lover reappears in the flesh. A case of mistaken identity gives her the chance to live her wildest fantasies until she and her lover discover they want more than just a week of incredible sex. Same Time Next Week--Too much champagne and the lingering scent of a man's cologne in the dark elevator of a hotel give Kinsey fantasies of the hot sex she'll never have with her not-quite-fianc, Dr. Dull, D.D.S. Those fantasies come to life when a moment later she finds herself in the arms of a gorgeous cowboy. They agreed on a night of sex with no names and no strings. But one night isn't enough and he takes her to his beach house for the weekend. Although she refuses to tell him about herself, she agrees to return for the next three weekends, each week insatiable desire turning into something more dangerous for both of them. Jack of Hearts--Jack McMillan can't believe his new neighbor is his ex's sister's best friend--the infuriating and gorgeous radio talk show host Royce St. Clair. Royce has always found Jack attractive, but cocky and arrogant, and she has no intention of becoming another one of his conquests. Still, they can't resist temping each other until the raw lust between them is irresistible. Mind-blowing sex only escalates the battle of wills that masks hidden feelings neither wants to reveal. I haven't read many erotica books, maybe because they lack the "romance" side and go directly to the fun. Well, this book has both. Don't get me wrong: this is steamy stuff but it also has that something else I look for in a book. Highly recommended it.
