Witty, amusing and cleverVon A.VollmerI am not a particular fan of chick lit, therefore I am glad that this book has more to it. It goes beyond this category. The dialogues are witty, cleverly arranged, and some gently soaked in sarcasm. The plot carefully put together through the eyes of different narrators had me hooked immediately. And there is more to it

than just the story. Some of the protagonist's thoughts could indeed list as _Confucius say..._ funny, but really full of truth.0 von 0 Kunden fanden die folgende Rezension hilfreich. Unglaubliche GeschichteVon Iris Abi VollmerWhat a masterpiece!!!! I was hooked from the very beginning and the characters seemed so familiar and real Nicker-gripping!!!! xx

KurzbeschreibungI will share a personal truth with you: darkness is not so intimidating once youve resided within its confines. Im not talking evil, but a blackness that can dwell in your soul, lurking in suspicion and toying with your heart. Its a state of mind, a place where you view the world within its context. It leaves a mark on you that is as permanent as any scar and as deep as any wound. It crawls beneath your skin, indulges in pain, and scrambles reasonable judgment into chaos. I am not shy of it. I adopt it as any other part of the human experience, and I am not ashamed to call on it for inspiration. It is, after all, a component of my character. I would not be complete without it and so it is sewn into my life with a fragile Zen-like thread.Polarity and Indecision is a nominee in the 2015 Global Ebook Awards.KurzbeschreibungI will share a personal truth with you: darkness is not so intimidating once youve resided within its confines.
