Von Christina Bauer : Portia (Angelbound Offspring Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Portia (Angelbound Offspring Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Too cheesy and short but still good, love the series thoughVon JohannaI've read all books by Christina Bauer so far, besides her novella(s), and I can say that I truly enjoy them and love coming back to her world. But I think the fact that

I'm giving this a three-fairy rating is mostly due to this fact that I really like her writing and have enjoyed especially the first two books so much. Because I did have some issues with this one. Portia is Maxon's little sister, her arrival in this fantastic paranormal world had already been announced her older brother's book. She's some sort of magical genius and is currently researching the deterioration of the firmament which holds all after-realms together. The void demons are slowly destroying the firmament and Portia is looking for a way to stop them. But then suddenly things erupt into chaos pretty fast and Portia doesn't have another choice but to turn to Tempest, the mysterious guy who's offered his help. Together they start on a quest to let her fulfil a task that also explains the strange markings she's had since her birth. I think the book is way too short. It needs a lot more time to develop three-dimensional characters. Portia and Tempest stayed rather flat which was a shame because I was really starting to like them. So far we've had magic in the form of people shifting into other forms or creating portals. But now there seems to be a whole new magic system with spells and different languages. Unfortunately, it isn't explained at all. I do understand insta-attraction but insta-love is kinda hard to take even though there is some shady explanation for it. The whole plot was totally predictable and almost simplistic which was a shame. Because the overall world-building is still great and I simply adore Bauer's engagin language which always makes me finish her books in record time, no matter the trouble I might have with them. I think I've read somewhere that the author is starting a whole new series and I'm really excited for that one. I'll definitely read it.

Produktbeschreibung "I read this book in 1 day and that was because the story was just that awesome. I really liked Portia, she was not a whiney character. Did I mention how much I love Tempest? He was just the most awesome male, so hot and sexy. Please, please, please read it, you will THANK me later!" The Angels Pearl Unlike her famous older brother Maxon, Princess Portia isn't known for killing demons or attracting admirers. The reason why is simple: a spell was cast on Portia, and the magic has marked her to one day transform into a dreaded Void demon. To fight this horrible fate, Portia spent her life hiding in libraries and learning magic. But when the Void demons threaten to destroy all the after-realms and the handsome dragon Emperor Tempest offers his help then Portia suspects that her future holds more than just a demonic metamorphosis. Fate is calling the bookworm princess onto the battlefield, and it's a fight against both deadly enemies and her hearts desires. Are you ready for some awesome action in the 5 realms? Oh, yes, you're going to see lots, lots of new realms! Be ready for it! I hope you would take this book to read! Trust me, just get the whole series, you wouldn't want to stop once you start! Enjoy it to its fullest! - Katie's Corner Blog Perfect for readers who love angels, devils, and demons but want a fresh take on their related fairy tales, myths, and legends. This series combines fierce females, paranormal romance and urban/contemporary fantasy. Enjoy! Read all the series from author Christina Bauer: Angelbound Origins (YA Dark Fantasy) Angelbound Offspring (YA Dark Fantasy) Beholder (YA Dark Fantasy) Dimension Drift (YA Urban Fantasy) and coming soon Fairy Tales of the Magicorum (YA Urban Fantasy)
