Von Peggy Waide : Potent Charms before purchasing it in order to gage whether or not it would be worth my time, and all praised Potent Charms:

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich.
Average Von TooManyHobbies This was an ok book, but not a real page-turner. Phoebe was a lovable character, but after the first few chapters I came to heartily dislike Stephen. His only goal was to convince Phoebe to become his mistress without regard to how the label would affect her life, her position in society, or the life of their children

(which Phoebe longed for). Granted his main reason for not wanting to marry Phoebe was a fear that an old family curse might cause her death, but I still found his solution (making her his mistress) a tad selfish. Overall the book was ok, just not one I plan on keeping.0 von 0 Kunden fanden die folgende Rezension hilfreich. CHARMING, INDEED !Von G.C. LarkinWhat a wonderful read, Waide has equaled if not surpassed her first book. Stephen and Pheobe are a very alluring, dynamic couple and the author has introduced us to a superb secondary cast of characters. Her villians evoke strong emotions and you certainly feel very satisfied when "they get theirs". Sensual but tasteful our couple are very driven and their attraction evident throughout this intriguing story. Definitely a one sitting read that I highly recommend.

KurzbeschreibungShe is the most frustrating woman Stephen Lambert has ever met and the most beguiling. But a Gypsy curse has doomed the esteemed duke of Badrick to a life without a happy marriage, and not even a strong-willed colonial heiress with a tendency to find trouble can change that. Stephen decides that since he cannot have her for a wife, he will convince her to be the next best thing: his mistress. But Phoebe Rafferty needs a husband, and fast. She has four weeks to get married and claim her inheritance. Phoebe only has eyes for the most wildly attractive and equally aggravating duke. But he refuses to marry her, mumbling nonsense about a curse. With time running out, Phoebe vows to persuade the stubborn aristocrat that curses are poppycock and the only spell he has fallen under is love.

AutorenkommentarEver thought your love life might be cursed? I know I've had those days and before I wrote this book, I thought, oh my, this could be interesting. Hence, Phoebe and Stephen were born. A gypsy curse was the Duke of Badrick's legacy, and he believed every bit of it. After all, he'd been married before with disastrous results and vowed to never marry again. Phoebe needed a husband and fast or else she lost her inheritance. The problem was she only had eyes for the Duke of Badrick. Potent Charms was great fun to write. I hope you enjoy their adventures as Stephen tries to convince Phoebe to become his mistress and she tries to convince Stephen to become her husband. Who do you suppose wins? True love, of course.
