KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. 4.5 stars! Great beginning to a new series.Von Detra FitchAlex Connor has recently graduated college and is thrilled to have been elected as the Hughes County coroner/medical examiner in Pierre, South Dakota. When Officers Jones and

Stone brings in a dead body and makes some cryptic remarks about it, Alex believes they are messing with her. But during the autopsy, a huge snake jumps out from behind the man's heart, wraps around the entire length of her arm, and becomes a living tattoo. By the time Alex pulls herself together, the male body has already sat up, picked his liver up from the weighing scale, and walked out the door. Due to her past mental history, Alex has to work up the courage to report the missing body. Alex is sent to Precinct 13, a secret team of paranormal cops. This is where Alex learns that she was never insane or hallucinating in the past. Fairies, vampires, golems, witches - all the myths - actually exist. Her new coworkers are paranormals just like her. They encourage Alex to learn about her abilities, which includes speaking to the dead to solve crimes. In return, perhaps Alex could help Precinct 13 locate the missing body of a necromancer and figure out where all the zombies are coming from. ***** FOUR AND A HALF STARS! Other than being a bit predictable at times, this story is extremely well done. In fact, this is probably the best Urban Fantasy story that I have read all year. The characters surrounding Alex are made up of a wide variety of creatures, humans with special paranormal abilities, and half-breeds. (An example would be the werewolf/vampire.) Tate Hallaway has a crisp writing style which managed to reach out and grab me by the throat. Once I picked up this book, I never set it back down. I can only hope that the author learns to write faster, because I want the next installment NOW! Incredible! ***** Reviewed by Detra Fitch of Huntress Reviews.

Kurzbeschreibung Recent college grad Alex Conner is thrilled to have landed a job as the Hughes County coroner/medical examiner in Pierre, South Dakota. But when her first day on the job ends with a missing corpse, Alex starts to wonder if she would have been better off collecting unemployment... When the cops made some cryptic comments about being careful with the body they brought in, Alex just thought the boys in blue were messing with her. That is, until something freaky happens that no amount of med school could have prepared her for. By the time Alex gets herself together, the body has disappeared and the other residents of the morgue start talking her ear off. After working up the courage to report the missing body, Alex is transferred to the mysterious Precinct 13 where she discovers that her new co-workers including a cute technomage named Jack are paranormals just like her. Now, Alex is being encouraged to use her ability to speak to the dead to solve crimes. And despite being in the middle of nowhere, Hughes County sure does have a lot of paranormal activity. Pressestimmen "Tate Hallaway has a wonderful gift."
