After reading this book I will be looking for more of his works. This book has the two forces of evil joining forces,the Soviet Union and Iran. This makes for an exciting read. Terrorist acts break loose all over the Unites States. The President bombs every terrorist cell that can be

named. There is also an ultimate villain with the terrorist who is still alive when the book ends. Hopefully this means that there will be a sequel. A very well written and exciting book. You will be the loser if you miss this one. 2 von 2 Kunden fanden die folgende Rezension hilfreich. A USA POSSIBILITY Von Kindle Customer Superb writing. Weber's takes you on a roller coaster ride through Middle East terrorist's plans, executions, and ultimate assassination attempts of the most powerful man in the world. Weber's acute military knowledge adds to the suspense that makes us wonder if this scenario can ever unfold. Never one to take our military for granted, thanks to our men and women who protect us all. 1 von 1 Kunden fanden die folgende Rezension hilfreich. I couldn't stop reading until I finished. Highly recommended for fans of military and quasi-military novels.
