Von Emma Holly : Prince of Ice: A Tale of the Demon World (Tales of the demon world) before purchasing it in order to gage whether or not it would be worth my time, and all praised Prince of Ice: A Tale of the Demon World (Tales of the demon world):

Kurzbeschreibung"Emma Holly loves to take a walk on the wild side," (Best s) and here she ventures into a sensuous and dangerous world where a human courtesan becomes the flesh abd blood property of a demon prince. Soulmates,

lovers - and victims of an unnatural desire that could drive them both insane. From Booklist Orphaned and sent to Madame Fagin's training house for pillow girls, Xishi can't believe her good fortune when her long-lost friend, Prince Cor, buys her and takes her back to the Forbidden City. But Cor has changed from the happy boy she once knew. Determined to master his emotions, he's grown into a cold, collected man. It's fitting that Holly conjures an alternate Victorian world, since the story has a Dickensian style as she starts at the beginning of her star-crossed lovers' lives and works her way forward. In our time, when fast-paced, right-out-of-the-gate stories are gospel, Holly takes a risk, but it pays off. Lavish settings, palace intrigue, and hidden agendas add dimension and suspense to her elegant, erotic romance. Following *The Demon's Daughter* (2004), *Prince of Ice* is the sultriest entry yet in Holly's Demon World series. Nina Davis Copyright American Library Association.
