**Von Tara Janzen : Prince of Time (The Chalice Trilogy Book 3) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Prince of Time (The Chalice Trilogy Book 3) (English Edition):

Good read - starts better than it endsVon Ein KundeThe first half of the book is a lot better than the second. In the beginning it is a quite detailed fantasy story with a bit of romance. Towards the middle it starts to be a bit confusing if you don't

know the two previous books. I was a bit disappointed with the end. The story seemed a bit hurried and while I'm not a fan of endless 'final battles' a bit more would have been appreciated. The development of the relationship between Morgan and Avallyn was also much better written in the first half. In general, it's a good book but not necessarily one I would buy to keep.
