Magnifico! Von Kristine First, the characters are great. Their descriptions are very thorough. You can almost see them, as if they really are true persons. Second, the plot of the story is very well-defined. Third, the flow of the story is well-timed. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Review of Erich Segal's "Prizes" Von Ein Kunde Prizes is an truly terrific book. It has a plot similar to that of a daytime soap opera, however, it is much more sophisticated and realistic. Although very exciting with many interesting twists and turns, the book displays a strong theme of man's selfish nature, and causes one to take a serious look at the ethics of the world today. The themes of great human achievement and perseverance are also prominent. I enjoyed "Prizes" thoroughly, and I strongly recommend it for readers seeking a well developed, entertaining story. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Wonderful Von Ein Kunde The book is so amazing in the way it portrays the feelings of Isabel, the child prodigy that wins the Nobel prize at the age of 18. Like Isabel, I was labeled as a "gifted kid" and saw Isabel as a reflection of myself. Segal masterfully portrays the psyche of Isabel. The best part of the novel is Jerry Pracht, Mr. Perfect himself. This book is so cool!
