Muldoon's Techniques REALLY Work!Von Ein KundeI've tried many methods for achieving an OBE. After reading many authors, Muldoon's "falling dream" method is the only one that even came close to working for me. Also, I've experienced some of the OBE-related phenomena he describes, which further validates his writing for me. Although I

have yet to have a "full-fledged" OBE, I've come closer practicing his methods than anything else! Highly recommended. 2 von 2 Kunden fanden die folgende Rezension hilfreich. Best Book on the Subject! Von Ein Kunde This is certainly an interesting book. When I checked this book out of a library years ago, I was expecting a poorly written book with no good explanations. How wrong I was! This excellent book is the best of the best. The Projection of the Astral Body offers great information about OOBes, and theories on how they work. This book has been my favorite in all of my collection. Meaning: It's damn good. 3 von 3 Kunden fanden die folgende Rezension hilfreich. The most informative accurate text on AP. Von Ein Kunde This is the only book one needs to read for a clear understanding of the experience. Actual knowledge remains in the realm of personal experience.
