Von Annette De Burgh : Seize The Day (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Seize The Day (English Edition):

My kindle app tells me I have reached 37% of it before giving up. I admit the characters are different from the average lesfic too-good-to-be-true (and single) person. But the story is so full of non-relevant stuff, it describes Vivian as such an ber-character, I simply could not take it anymore.Having said all that there are a number of things the author got right. The initial descriptions of the characters are well-crafted. The setting (a package tour through Italy) provides a good background and enough food for the characters to chew on. I suppose what this book really lacks is a good editor who dares to set the author 'straight' about likable characters and wrapping things up.The way it is now I will never learn when and how the two leads get

together, if ever, and frankly, I do not care.0 von 1 Kunden fanden die folgende Rezension hilfreich. LichtblickVon AHADas Buch ist ein wahrer Lichtblick in diesem leider oft seichten Genre anderer Autoren. Die Geschichte ist gut geschrieben und hat Tiefgang. Ich werde weitere Bcher von Annette de Burgh lesen.
