Appalling and revolting! Zero stars
Von Ein Kunde I was completely appalled and abhorred reading this book. In an introductory letter to the reader, Ms. Johnson writes that this story follows the tradition of romances of the past described as "bodice-rippers". The story was originally printed in 1978. This book is incorrectly labelled a "bodice-ripper"; bodice ripping is far too mild a description for this story. The characters in this book are completely reprehensible. The hero treats the heroine wretchedly. He insults, ignores, domineers, and forces his attentions on her. At one point, he outright rapes her. The "love" scenes, if you can even call them that, are on the borderline of rapes and that is because the heroine's lust for the hero makes her capitulate to him. I tried to sympathize with the heroine because she is initially innocent in this story. However, her masochistic tendencies to put up with her abuse at the hands of the hero and to continue to love him removed any pity I had for her. The hero never reforms. Even at the end of the story when the couple inevitably acknowledge their love for one another; Nikki's declaration left me hollow. After his declaration of love following his wife's near death during the birth of their child, the heroine asks him to abandon his philandering ways and give up his mistresses. He first considers lying to her, but he doesn't want to make promises he can't keep, so he replies that he will "forswear one day at a time." This was my first Susan Johnson book and, unfortunately, it will take me some time to pick up another one of her books.

Von Ein Kunde This is not a tale of love but lust. The hero is a selfish cad so I was not convinced at all that he fell in love her. The story lacks credibility. The author stretches it to put in the steamy love scenes. This is a book I couldn't enjoy.

Von Ein Kunde Susan thank you for this story! I felt as if I was in Russia with Alisa and Nikki. I can see the costumes, the buildings and their love! This is my first time reading a romance novel and I love history, including the Russian period. You are the only author that captures the essence of love, lust, sex and romance. Please keep writing because I am one loyal fan!!! NDW

Kurzbeschreibung Well versed in the sensual arts, Prince Nikolai Kuzan wagers that he will be able to seduce the chaste Alisia Forseus in three days and steal her from her husband, but the lark turns serious when Kuzan finds himself falling in love.
