Von Adrienne Wilder : SEVEN (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised SEVEN (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.
Wonderful psi storyVon QuerleserThe romance between Seven and Chase takes a step back and lets the real story display: the fight to stop the dreadful experiments on humans. The story is full of action, the characters are convincing, there are some logical issues, but I really liked this book. It is nothing new that greed is a powerful desire and that humans can be their own biggest enemy. The idea of a greedy villain who uses psychic people to gain power is not

new, either. But the conspiracy around Seven and his brethren is exciting and never boring. I didn't like the "we are all pawns of Nine" conclusion and some logical issues could have been solved better, but if you like a good psi story, go for it!

Kurzbeschreibung
A past that wont let go
After losing his job, Chase Sarim finds himself living in a shit hole apartment. His new neighbor calls himself Seven, wears aluminum hats and carries around a ceramic rooster. He also seems to know what Chase is going to do or say before it happens, and talks about people named, Nine, Three, and Four. Chase knows better than to get involved with someone like that. But some men are just too hot to resist. A future of fear Seven has been running for his life ever since he escaped Sub-Floor. In order to elude those hunting him he can never have a home, never have friends and love? Its nothing but a weakness that can be used against him. Hiding had become a way of life. Until Chase. Greed, power, and corruption Dr. David Stone knows Seven has a secret. Why else would his colleague, Dr. Radcliff, help Seven escape Sub-Floor? It wasnt the loss of a defective precog that bothered Stone, it was the fact Radcliff was willing to die to keep Stone from knowing why he did it. Or better yet, how. Two men, one love, brought together by a series of impossible circumstances and destined by fate for an entangled future. But maybe fate has nothing to do with it.
