Shadow #1, I predict that this author will become WELL known.Von Detra FitchTalia O'Brien is twenty-six and has a PhD in anthropology. Her mother died at birth. She was raised by an aunt, also deceased. The description sounds as if she were a normal person. However, in a near-fatal car accident ten years ago, Talia came face-to-face with her biological father, Shadowman. He goes by many names. Death and Grim Reaper are used by most. He is wrapped in shadow,

wields a massive scythe, and is feared by all - including Talia. Adam Thorne founded the Segue Institute six years ago. In a concrete hole, beneath the institute, Adam keeps his brother, Jacob, in a cell. The institute exists for the express purpose of discovering how to kill a wraith. These anthropomorphic monsters are "deathless" and regenerate by sucking out the souls of humans. Jacob has become such a creature. Led by a demon, the wraiths are organizing and call themselves The Collective. Adam has read Talia's dissertation and needs her on his staff. But locating her is difficult. Talia is being hunted by The Collective and is in hiding. The wraiths want Talia alive, though no one can figure out why. Once Adam has Talia, he must convince her that humanity is at the brink of destruction. Without her, life as we know it is over. The situation is simple. She is the daughter of Death, able to use the shadows as a chameleon blends into its surroundings. She is destined to live apart from others and die in a war she did not understand. As horrible as the wraiths are, they are not Talia's greatest fear. That is reserved for what happens whenever she screams in fright. Death, the dark thing with red eyes inside the black wind of her scream, comes. \*\*\*\*\* FIVE STARS! In all my years as a book reviewer, twice I have stated that a debut author would someday become well known and multiple best sellers in their futures. The first was John Grisham in the Legal Thriller genre. Years later, the second was Jacquie D'Alessandro in the Historical Romance genre. Now, again after several years, I have found a third, Erin Kellison in the Paranormal Romantic Suspense genre. The shadows lurking within these pages are alive with horrible dangers that will keep readers quickly turning the pages until the very end. Well developed characters, a touch of romance, and overflowing with suspense, this story is unforgettable. But no matter how deeply engrossed you become, don't forget to breathe. \*\*\*\*\*

Von Helen Hancox 'Shadow Bound' was an interesting story from this new author, a tale that wasn't at all predictable and that had an enjoyable balance of menace and danger with a touch of romance. Although most people still think the world is normal, there is an ever-growing group of immortals, known as 'wraiths', who are sucking the life from humans. Adam Thorne founded the Segue Institute to try to deal with the problem - and specifically to try to either kill or cure his brother who is a wraith. He has searched for clues as to what's happening and has come across the name 'Shadowman' a few times - when a PhD Thesis also mentions Shadowman, Adam wants to get the author to work with him. The thing is, Talia O'Brien has disappeared. When Adam finally finds her, saving her life from a wraith at the same time, he realises she is more than just someone who has done lots of research to write her thesis. Talia has something special about her - but can she defeat the wraiths? And can Adam keep her safe - and alive? This was an enjoyable book with twists and turns in the story, changes of location and situation and the aforementioned romance. The author has a good way of telling the story and made the characters interesting. I didn't always entirely understand Talia and what was happening with her, but it was a good read overall and I presume the start of a series. Kurzbeschreibung DEATHS Some people will do anything to avoid it. Even trade their immortal souls for endless existence. WRAITHS Secretly, inexorably, they are infiltrating our world, sucking the essence out of unsuspecting victims with their hideous parody of a kiss. SEGUE Adam Thorne founded the Institute to study and destroy his monster of a brother, but the key to its success is held in the pale, slender hand of a woman on the run. There is something hauntingly different about Talia O'Brien, her unknowing sensuality, her uncanny way of slipping into Shadow. TWILIGHT This is the place between life and what comes after - a dark forest of fantasy, filled with beauty, peril, mystery. And Talia is about to open the door.
