KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Exciting FunVon JimRomance and action all wrapped in exquisitely vivid settings. This is the second installment in the

adventures of Evy Rivera. Evy is a sexy and smart heroine who travels through time and saves the day, all the while dealing with romantic angst. I love the alternate history nod to Nikola Tesla. This is a fast read that will leave you wanting more.

Kurzbeschreibung With the man she loves stuck in ancient Spain, her mentor kidnapped, and her father refusing to embrace their destiny as the only family with the ability to alter history, Evy must go back to work as the lone female lightning rider. Shell get a chance to see Constantine when she arcs back to Ancient Rome, but this time he wont know her. And shell have no way to warn him that shes come to save his daughter. Even with a success, there wont be time for his praise, swept into the biggest part of her mission befriending the super-genius Nikola Tesla at the request of both Ilif and Penya for very different reasons. Teslas world-changing patents are at stake and Evy must keep them out of the wrong hands but does she know who to trust? Nikola and his work will reveal more questions than answers and force Evy to explore not only her ability as a rider, but as a woman.
