tale, leaving us waiting for more! Jenna dan Aron, a Shielder seer. Worse, she is one who has envisioned her own terrible fate. In her farseeing, she saw herself mated to a Leor, a man from a cruel race of people. In a Klingon style, they suppress any emotion and they mate for life. Even knowing this ahead of time, she fears she cannot stop fate, so she embraces it. When the Comdar of Saura, Arion, come to Shamara seeking a mate, Jenna, resigned to her destiny, volunteers. Arion is not thrilled to be marrying outside his race, but he has no other choice. He fears Jenna will not adjust the barbarian ways of the Leor, thinks her too weak and feeble to survive. However, Jenna is stronger than even she knows, and along the way she finds Arion is not the distant man he shows the world. Once again, Spangler builds a strong Futuristic World, that grabs the reader and pulls into the marvelous land. Keep them coming, Catherine! 1 von 1 Kunden fanden die folgende Rezension hilfreich. One of the best so far... Von Ein Kunde This is without a doubt one of the best of Catherine Spangler so far (second only to Shadow crossing)! The only reason I'm not giving it 5 stars, is that the description of Leor society was a bit \*too\* realistic and barbaric for me in some places (being a Vegetarian myself, I can understand Jenna's disgust at having to dismember a wild boar;) - would be ok for an SF novel but unusual for a Futuristic Romance. But nevertheless, a great continuation of the series... and I'm looking forward to the next installment! Here's the text from the back cover: Jenna dan Aron lives a solitary existence, shunned by her people because she can see the future. She even foresees her own destiny: to be a human offering, a mate for a savage Leor warlord. When two Shielder colonies have to be rescued and the Leors who are their only hope demand a bride for their leader in return, Jenna steps forward. Arion of Saura finds mating outside his race abhorrent, but he has no choice, as his kind faces extinction. Bound to him, Jenna faces a life of barbarism with a mate who seems more beast than man. Jenna and Arion wage a battle of wills until they discover that the heart is mightier than any weapon - and that love will forge shadow and fire together. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Great Sci-Fi-Romance that tugs on the heart! Von Cassandra Way too many sci-fi romances have pretty silly heroines, over-the-top-perfect heroes, pretty non-descript world building, and dialogue that makes me roll my eyes in disgust. There just aren't enough good sci-fi authors out there who take both the world-building and their characters seriously. Man, am I glad I found Catherine Spangler! Her books are definitely for the keeper-shelf! "Shadow Fires" is just great, great, great!! It has wonderful characters and an engrossing story that kept me turning the pages. The building of the relationship between the two main characters, Jenna and Arion, is wonderfully done. From their first meeting, when they know almost nothing about each other, to coming to understand their different cultures and beliefs, to finally falling in love the story unfolds beautifully and (most important) believably. I practically inhaled the book, reading it in two days. The ending is dramatic and heart-wrenching. I had to swallow down tears because I came to care for Jenna and Arion so much I couldn't bear to see them torn apart. All ended well (this is a romance after all) though I could have happily stayed on Saura (Arion's home planet) for another three-hundred pages. This is the first book by Catherine Spangler I've read, the fifth in the Shielder series. I've bought it first because the story interested me the most at the time and I can tell you it can be read out of order without difficulty. I had no trouble understanding what was going on. The world, the different races, everything is explained thoroughly. Besides, Ms. Spangler focuses strongly on the main characters which I liked a lot because characterization is what usually draws me into a story. This is definitely a book I will read again and again. Highly recommended!

Kurzbeschreibung RWA RITA Nominated Science Fiction Romance! Jenna dan Aron, a Shielder, lives a solitary existence, shunned by her people because she has visions and can see the future. She even foresees her own destiny: to be a human offering, a mate for a savage Leor warlord. When two Shielder colonies need to be rescued, the Leors who are their only hope demand a bride for their leader in return. Knowing she can't deny fate, Jenna steps forward. The Leors are a hybrid race and only part human. Arion of Saura finds mating outside his race abhorrent, but he has no choice, as his kind faces extinction. His life is ruled by hard logic and physical prowess, with no room for softness or emotion. Bound to him, Jenna faces a life of barbarism with a mate who seems more beast than man. In the relentless heat of the wild Sauran desert, Jenna and Arion wage a battle of wills, until they discover that the heart is mightier than any weapon and that love can forge shadow and fire together. -----What readers are saying about this science fiction romance: In this twist on Beauty and the Beast, Spangler imagines a well-drawn futuristic world. Booklist If you love romance and love science fiction, then Shadow Fires is the book for you. Pamela K. Kinney The story line is action packed on the two levels: that of a science fiction thriller and an outer space romance, with both blending brilliantly together. Catherine Spangler spangles once again with this superb stellar story. Harriet Klausner \*4-1/2 Stars, TOP PICK\* Catherine Spangler broke new ground when her first book Shielder was published. Her creative and innovative world building makes for an unrivaled adventurous read. Highly recommended! RT Book sShadow Fires is without a doubt Catherine Spangler's best novel yet . . . Ms. Spangler shines, her talent wonderfully evident as she takes us on a journey across galaxies . . . I am looking forward to future novels by one of romance's brightest stars. Sensual Romance sMs. Spangler should be called the Queen of Futuristic Romances! Shadow Fires is heady reading that is intoxicating to the senses. Reader to Reader
