Von Christine Feehan : Shadow Game (Ghostwalker Novel Book 1) (English Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Shadow Game (Ghostwalker Novel Book 1) (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 5 von 5 Kunden fanden die folgende Rezension hilfreich. A good idea but not enough plot Von Helen Hancox I bought this book on the strength of the reviews, and because I had read

Wild Rain and enjoyed it (part of a different series by Christine Feehan). This book is about a group of special forces men who have had their natural psychic talents enhanced by a doctor but things have gone wrong. His daughter, Lily, finds herself helping the men after her father is killed and her help is successful because she, too, was psychically enhanced by her father. Lily and the leader of the men, Captain Ryland Miller, together work to find out who is responsible for the death of her father. I enjoyed the book as I was reading it but I was also disappointed. The reviews had been very positive, but I found that the book lacked depth not in the subject matter, but in the relationship between the main characters. There was plenty of sex, supposedly there was a meeting of minds and emotions, but it all felt very flat and one-dimensional to me. I suppose the basic problem was that there was no tension within the story they met, instantly fell completely and utterly in love/lust, and that was that. No confusion, no learning to love each other more, no mistrusting and misunderstanding which tends to be the focus of all good novels. There's little interest in a romance when it runs without a hitch. The sex scenes I found boring and there were too many of them. I was reading this book for the view of different possibilities within this world where psychic abilities are enhanced for military reasons but I found I was reading a book about sex. And someone needs to offer Christine Feehan another adjective to go with breasts she only seemed able to use generous, and used it multiple times. It jarred. I suppose this book was OK but somehow it didn't really connect with me. I'll read the others if I come across them in the library but I wouldn't bother buying them.

4 von 5 Kunden fanden die folgende Rezension hilfreich. der beginn einer neuen guten Serie von Feehan
 Von -Kunde Ich habe sowohl dieses Buch als auch die beiden nachfolgenden Bände gelesen und bin begeistert. Die Vorstellung, dass jemand psychisch begabte Menschen als Waffe benutzen will (in diesem Fall das Militär) ist ja noch vorstellbar, aber dass ein Wissenschaftler so weit geht, diese Männer zu manipulieren, sie so zu verändern, dass sie seiner wissenschaftlichen Vorstellung entsprechen und sie dann auch noch wie Versuchskaninchen hält und behandelt, geht weit darüber hinaus. Dr. Peter Whitney hat nicht einmal Skrupel seine eigene Tochter da hineinzuziehen. Gott sei Dank ist sie bereit, den Männern zu helfen, sowohl den Folgen der Wissenschaftler zu entkommen als auch ihre diversen Fähigkeiten unter Kontrolle zu bekommen, damit sie wieder ein einigermaßen normales Leben führen können. Dass sie dabei auch noch die große Liebe findet ist wunderbar. Christine Feehan ist wieder ein wunderbares Buch gelungen, dass zwar sichtlich auch Anlehnung an ihre Dark-Series nimmt aber im Großen und Ganzen eine eigenständige Reihe mit den "Ghost-Walkers" beginnt. Was Dr. Lily Whitney über die Vergangenheit herausfindet, sowohl über die ihres Vaters, der Soldaten als auch über ihre eigene wird ihr Leben bis in die Grundfesten erschüttern. Es wird interessant sein weiter zu verfolgen, wie es sowohl mit ihr und Ryland als auch mit den anderen von Captain Millers Team weitergeht.

 Von P.I.A. Lily ist die Tochter des brillianten Wissenschaftlers Peter Whitney. der allerdings -typisch besessener Wissenschaftler- die Grenzen zwischen dem, was human vertretbar und wissenschaftlich möglich ist, nicht immer strikt einzuhält. nach dem motto das Ziel rechtfertigt die Mittel. er will Soldaten schaffen, die aufgrund ihrer psychischen Fähigkeiten berufen sind. zu diesem Zweck experimentiert er mit freiwilligen aus dem Militär und dem Polizeidienst. dabei geht er nicht zimperlich mit den Männern und es kommt sogar zu einigen Todesfällen. der Wissenschaftler steht finanziellen Interessen seiner Mitarbeiter und befreundeter Militärs im Wege und wird gettet. seine Tochter Lily übernimmt seine Arbeit... jedoch in dem Bestreben, den Soldaten, die als Versuchskaninchen benutzt wurden, zu helfen. sie bietet den Männern ein Heim und bildet sie weiter aus. zusammen können sie die Verurteilten, die ihren Vater gettet haben, befreien. und während all dies geschieht, verlieben sich Captain Ryland Miller und Lily in einander. und es gibt noch mehr Proben... aber dies erfährt man dann doch besser beim Lesen der spannenden Geschichte...

Kurzbeschreibung #1 New York Times bestselling author Christine Feehan plunges readers into the darkest recesses of the mind as a man and a woman discover the terrifying power and the forbidden passion that could destroy them both in the first novel in the GhostWalker series. The brainchild of renowned scientist Peter Whitney and his brilliant daughter, Lily, the GhostWalker experiment was created to enhance the psychic abilities of an elite squadron, transforming their natural telekinetic powers into a unique military weapon. But something has gone wrong... In the isolated underground, the men have been dying, victims of bizarre accidents. Captain Ryland Miller knows he is next. When Dr. Whitney himself is murdered, Ryland has only one person left to trust: the beautiful Lily. Possessed of an uncanny sixth sense herself, Lily shares Ryland's every new fear, every betrayal, every growing suspicion, and every passionate beat of the heart. Together, they will be drawn deeper into the labyrinth of her father's past... and closer to a secret that someone would kill to keep hidden. From Publishers Weekly Having fast made a name for herself in the vampire romance realm, Feehan (Dark Symphony, etc.) now turns her attention to other supernatural powers in this swift, sensational offering. When Lily Whitney's adopted father asks her to act as consultant on a project involving the development of advanced psychic powers, she is stunned to learn that he is experimenting on men from an elite military squadron. The men, led by Capt. Ryland Miller, are separated and caged like lab rats in an underground facility where they have learned to communicate with each other telepathically, a talent Lily has had since birth. In true romance form, Lily and Ryland share an instant attraction, which leads to a few intriguing sexual liaisons (such as

the sequence where Ryland enters Lily's dream). After Lily's father is murdered, she discovers that he harbored some despicable secrets, but that doesn't stop her from searching for his killer. At times it's difficult to overlook the story's improbabilities (e.g., Lily can move objects, but when in danger, she can't help herself) and Feehan's overly dramatic prose ("Small bolts of lightening whipped in his bloodstream"; "Tongues of fire raced along her skin"); however, this is still the sultry, spine-tingling kind of read that her fans will adore. Copyright 2003 Reed Business Information, Inc. From Booklist In Feehan's latest paranormal, sizzling sex scenes both physical and telepathic pave the road to true love for brilliant billionaire scientist Lily Whitney and Captain Ryland Miller, the leader of a squad of psionically gifted soldiers who have been imprisoned and separated from each other after receiving life-threatening enhancements. When Lily's father called her in to consult on a top-secret project he was working on for the government, he had no idea that he was signing his own death warrant or that his beloved daughter with her psychic talents would witness his murder and become a target for the traitors who were bending his project to their own evil purposes. Ryland lends his psychic strength to Lily and ignites a passion that brings him and his men into her high-security estate. Action, suspense, and smart characters make this erotically charged romance an entertaining read. Diana Tixier Herald Copyright American Library Association. All rights reserved
