getting better. This book revolves around Lance Marshall, cousin of the Marshall brothers from the other books. This one has quite some sexy scenes in it and the storyline revolves around a SM club. So if you don't like things like this then don't bother. However if you are a regular reader of this series you will see what the author has done and appreciate the storyline and the outcome. I am looking forward to the next book in the series - 'New Moon'. This is a nice series and the stories, characters and connection to the other books is good.

Kurzbeschreibung Lance Marshall has a nose for great news stories. It's not surprising, since his werewolf abilities allow him to move with greater speed and stealth than any human. Now he's on the prowl outside an ultra-exclusive Washington, D.C., nightclub The Castle, a heavily protected building within a forested park. But he is not alone. There is someone else in the woods who wants to get inside the secretive club. Savannah Carpenter's sister lies in a coma and Savannah knows that the mysterious goings-on in the Castle have something to do with it. Her wild sister had visited the club several times to partake in some erotic and dangerous fun and games, and Savannah wants answers. To get them, she joins forces with Lance, and the two pretend to be lovers to gain entrance. But the raw passion that arises between them is anything but an act. And the closer they get to each other, the closer they get to uncovering the truth and the monstrous evil that lies in the heart of the Castle.
