Von Dale Brown : Shadows of Steel (Patrick McLanahan Book 5) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Shadows of Steel (Patrick McLanahan Book 5) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Zuviel Politik (theoretische), zuwenig TechnikVon Dr. Friedrich GoesDale Brown habe ich gemocht, wegen der akribischen Beschreibung von SciFi-Technik von Kampf-Flugzeugen. Politik der Zukunft interessiert mich nicht. Das ist ein anderer Dale Brown!1 von 1 Kunden fanden die folgende Rezension hilfreich. hmmm made up stuffVon

afort666@aol.com Its fine for an author to make stuff up. but when he is supposedly describing real-world items, the author has a responsibility to get things right. Harm, shooting down an awacs? if harm could do that , then aircraft wouldnt carry amraams! a sam 10 ,hits a b2 on the wing,, the b2 - damaged -carries on. the sam 10 has a 300 lb + warhead. you tell me what actualy contact detonation would do. its too jingoistic- when Clancy does it- he does research Brown just wants the US to win, and it will- even if physics has to get bent in the process..'cloaking device'? positrons? hmmm/ maybe his next novel should be a startrek0 von 0 Kunden fanden die folgende Rezension hilfreich. Good Book - Inaccurate CoverVon Ein KundeDale Brown almost always writes gripping stuff. Shadows of Steel is no different. While Dale Brown certainly takes quite a few creative liberties and some of the scenarios in his books may seem far fetched, Shadows of Steel is generally realistic. Iran is the key country in this book, and Brown gives them the military might to hold all the power in the Persian Gulf. It's up to Brown's hero Patrick McLanahan to destroy the Iranian threat using America's finest, the B-2 Bomber.The only real problem I had with the book was its cover. If you read Cyrillic and know your Russian navy, the aircraft carrier on the cover is the "Kiev". Brown's carrier in the book is the "Varyag", a totally different ship than the cover, and which was not completed and currently remains in dry dock in the Ukraine, rusting away indefinitely. Despite the incorrect cover, I praise Dale Brown for his originality in predicting the sale of the carrier to China, something which is very likely to happen.Another good book by Dale Brown that every serious military techno-thriller enthusiast should have on their bookshelf. For people who don't like all the technical information that is critical in a book in this genre, stay away! Dale Brown puts all the technical information in his books for a reason, to make them realistic. People who get overwhelmed by these kinds of books shouldn't write negative reviews just because of that. If you don't like technical information, don't read techno-thrillers. But don't put down the author for authenticity. Still, serious fans will enjoy this book.

KurzbeschreibungThe new Gulf War is erupting, and this one will be far bloodier than the first. A newly powerful Iran is flexing its military muscle in the Middle East. The Iranians have declared the Persian Gulf their territorial waters- and an American ship has just been sunk to prove the point.With a military racked by budget cuts and a public reluctant to fight, the president must end the crisis before it escalates. The solution: Project Future Flight, a surgical stealth campaign to silence Irans modern weapons. The personnel: Colonel Patrick McLanahan and the surviving crew of the Old Dog. The stakes: success-or full-scale warAuthor Dale Brown:Former U.S. Air Force captain Dale Brown is the superstar author of 24 best-selling action-adventure techno-thriller novels: FLIGHT OF THE OLD DOG (1987), SILVER TOWER (1988), DAY OF THE CHEETAH (1989), HAMMERHEADS (1990), SKY MASTERS (1991), NIGHT OF THE HAWK (1992), CHAINS OF COMMAND (1993), STORMING HEAVEN (1994), SHADOWS OF STEEL (1996), FATAL TERRAIN (1997), THE TIN MAN (1998), BATTLE BORN, (1999), WARRIOR CLASS (2001), WINGS OF FIRE (2002), AIR BATTLE FORCE (2003), PLAN OF ATTACK (2004), ACT OF WAR (2005), EDGE OF BATTLE (2006), STRIKE FORCE (2007), SHADOW COMMAND (2008), ROGUE FORCES (2009), EXECUTIVE INTENT (2010), A TIME FOR PATRIOTS (2011), and TIGERS CLAW (2012). His 25th novel, entitled STARFIRE, is scheduled for release in early 2014. He is also the co-author of the best-selling DREAMLAND techno-thriller series and writer and technical consultant of the Act of War PC real-time strategy game published by Atari Interactive, and the Megafortress PC flight simulator by Three-Sixty Pacific. Dales novels are published in 11 languages and distributed to over 70 countries. Worldwide sales of his novels, audiobooks, e-books, and computer games exceed 15 million copies.Dale was born in Buffalo, New York on November 2, 1956. He graduated from Penn State University with a degree in Western European History and received an Air Force commission in 1978. He was a member of the first class of Air Force ROTC cadets to qualify for and complete the grueling three-week U.S. Army Airborne Infantry paratrooper training course at Fort Benning, Georgia in 1977.Dale was a navigator-bombardier in the B-52G Stratofortress heavy bomber and the FB-111A supersonic medium bomber, and an instructor on aircrew life support and combat survival, evasion, resistance, and escape. He is the recipient of several military decorations and awards including the Air Force Commendation Medal with oak leaf cluster, the Combat Crew Award, and the Marksmanship ribbon.Dale is a command pilot in Angel Flight West, a group that volunteer their time, skills, and aircraft to fly needy medical patients free of charge to receive medical treatment. Dale is also a mission pilot and deputy squadron commander in the Civil Air Patrol, which performs search and rescue, disaster relief, humanitarian assistance, surveillance, and many other missions in support of the U.S. Air Force and other federal agencies. He supports a number of organizations to promote law enforcement, education, literacy, and support for military veterans and their families.Dale Brown is a Life Member of the Air Force Association, U.S. Naval Institute, and National Rifle Association. He is a multi-engine and instrument-rated private pilot and can often be found in the skies all across the United States, at the controls of his Cessna P210 Centurion. On the ground, Dale is a youth soccer referee and referee instructor and enjoys tennis and scuba diving. Dale, his wife Diane, and son Hunter live near Lake Tahoe, Nevada.Visit us on the Web at <http://www.AirBattleForce.com> and on Facebook at

<http://www.Facebook.com/AuthorDaleBrownPressestimmen> Like the techno thrillers of Tom Clancy, Stephen Coonts and Larry Bond, the novels of Dale Brown brim with action, sophisticated weaponry and political intrigue. Far from just another techno thriller, *Shadows of Steel* is a pulse-pounding novel of the near future.' San Francisco Chronicle

Kurzbeschreibung The new Gulf War is erupting, and this one will be far bloodier than the first. A newly powerful Iran is flexing its military muscle in the Middle East. The Iranians have declared the Persian Gulf their territorial waters-and an American ship has just been sunk to prove the point. With a military racked by budget cuts and a public reluctant to fight, the president must end the crisis before it escalates.
