book in between Von Starbooks I H The beginning and the end of a trilogy often faces a bit of an ungrateful position. The final plot can only be hinted at and thus it has to have a plot that continues but keeps you a bit unsatisfied. However, it is well written and has further developments of our protagonists. So, the series would not do well without it, but you just want the third book right away. Fortunately for me it is already available and was not really annoying to have to wait. You feel the weight on our heroic leader more battle by battle and suffer with him through all those terrible losses. However, Cutter is the real surprise and his development is exciting and marvellously done. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Second installment of the cut off fleet. Von Ralph von Vignau The fleet continues on its quest to lead the AI's away from Earth and to find ways to survive on their own. Through several contacts with the remains of the intelligence that preceded the AI's, an awareness of the history and why the AI's are so bent on destroying them grows. Help comes from unexpected encounters and the fleet is saved from annihilation. Now we wait for the next book in the series.

Kurzbeschreibung The Fleet Fights On... Deeper. Farther into the black unknown of space. There is no other path, no way for the lost to go, save forward. Admiral Terrance Compton's fleet is cut off from Earth, deep in the heart of the enemy First Imperium. A third of his people have died in the year his force had been fleeing from its enemies, but he is as determined as ever to find a new home for his people, a way to save his war-torn fleet. His people are running low on everything: food, ammunition, fuel, and the brutal enemy is in relentless pursuit, marshaling all its vast resources to track down and destroy the human refugees. Compton must find a way to replenish his dwindling stores, while avoiding the massive enemy forces hunting his fleet from system to system. Compton seeks an escape, a refuge for his exhausted spacers from the relentless pursuit of their enemies. But they are about to find far more than that, as they discover the truth of the distant past, and a glimpse of a new future that lies before them. What they learn will shake all they believe and force them to reconsider who they are. And what victory would look like. The fight has just begun and the stakes are even higher than any of them had imagined. Crimson Worlds Refugees Reading Order Into the Darkness (Book One) Shadows of the Gods (Book Two) Revenge of the Ancients (Book Three) Winds of Vengeance (Book Four) Storm of Vengeance (Book Five) - Coming 2018 Kurzbeschreibung The Fleet Fights On...
