Shallows of Night by Eric Van Lustbader (the second book in the Sunset Warrior series)Von Mag Brian M. Byrne(corrected Version!)Lustbader is once again in his element in this second book in the Sunset Warrior series. He is adept at formulating complicated descriptions of observations and mental processes within the varying plot

sequences. He keeps the reader guessing as to how the hero will survive against overwhelming supernatural adversaries - one assumes he will survive because of the third book, but the intriguing question is just how this will all come about. He keeps the tension Level high throughout the book down to the last page! Excellent - And if you're thinking of his 3rd novel already, buy it. Also an excellent read and I'm looking forward to the 4th and 5th books in the series.
