**Von Catherine Spangler : Shamara A Science Fiction Romance (Shielder series Book 3) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Shamara A Science Fiction Romance (Shielder series Book 3) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. sheer brilliance from SpanglerVon Deborah MacgillivrayShamara is the third in the 'Shielder series' book by the very

talented Catherine Spangler. She started out in Futuristic Romance back when it was still getting its wings and her Shielder books helped define and set the standard for this genre. Spangler gives you George Lucas fantasy Off-World planets, and then proceeds to make you see them through her eyes. Her vivid writing conveys every detail of their world, allows you to experience it. But more so, she never forgets the romance. She always gives you very human characters. Not the perfect hero and heroine, but very down to earth...well, very human characters with flaws. It's through these flaws you get the emotions, the involvement that won't let a reader put her stories down. In Shamara, the third in the series (though they are stand alone and can be read out of order you enjoy them more if you do them in order). On the planet Travern the women are little better than slaves, so it's not surprising when Eirene Kane is told by her greedy uncle she is going to be bartered away as a virgin bride to the powerful Leors. On her planet she has no rights, yet she pleads with her uncle to reconsider her fate. She argues she is a healer. He merely laughs that her virginity was worth more to him. In her 'mind-seeing', she learns that she is an Enhancer, and that her future spouse will learn this secret sealing her doom. The Controllers, the rules of this quadrant, has wiped out the Enhancers, though obviously they missed a few here and there. So Eirene must hide that she is one. Desperate to escape her fate, she knows she must rid herself of her virginity, so she enters a pleasure dome where she meets a Shielder, Jarek san Ranual. The Controllers have been destroying the Shielder colonies, and Jarek was left for dead. Jarek is determined to prevent The Controllers from destroy more Shielders, but he needs Eirene's help. However, she refuses to admit she is an Enhancer. He believes she is the key to saving the Shielders, but he needs Eirene to trust him. The big stumbling block - Jarek killed her father, a traitor to the Shielders. Spangler just won a RITA nomination for Shadow Fires, the latest Shielder book, and small wonder. Shamara demonstrates the unbelievable brilliance with which Spangler conjures these far away worlds. It's a powerful, moving book that just doesn't get any better than this. 1 von 4 Kunden fanden die folgende Rezension hilfreich. Exiting space-romance Von Ein Kunde Shamara is the sequel to Shielder, the first novel by Catherine Spangler. In my opinion, it is even better. The main characters are better developed also I can't remember their names as I have read this book some time ago. Anyway, the hero is the brother of her first book's heroine and his mission is Shamara, a sanctuary for his people. He needs the help the woman whom he falls in love with but who desperately wants to remain undetected. The one weakness of the story is the unsatisfactory description of this magical ability and the unbelievable reluctance to help of the supposedly kindhearted healer. Despite that, it's a captivating romance and exiting space-odyssey, so enjoy reading!

Kurzbeschreibung Science Fiction Romance from RITA nominated author! In a universe of darkness and depravity, the Shielders battle to stay one step ahead of the powerful, vengeful Controllers, who are determined to destroy the entire Shielder race. The races survival depends on the quest of one man Jarek san Ranul. He has found evidence of a wormhole he believes might offer the Shielders an escape to another galaxy. But he faces daunting challenges to make such a mission possible. When he meets Eirene Kane at a Pleasure Dome and she saves his life, he realizes she might be the key to facilitating his daring plan. On the run from her cruel uncle and a Leor warlord who wants her as his bride, Eirene must hide her true identity. Shes an Enhancer, with rare powers that could get her sold to the highest bidder if shes caught. Her flight puts her on a collision course with Jarek, who suspects her secret, and knows he needs her powers to make his plan work. Although Eirene refuses to admit shes an Enhancer, Jarek believes otherwise and is desperate enough to kidnap her. During their enforced time together, a special bond forms between them, leaving Eirene torn between her attraction to this charismatic Shielder commander and the need to ensure her survival. Despite the danger should her true identity ever be exposed, she finds herself falling in love with Jarek, and wanting the one thing he claims will free them forever Shamara. -----What readers are saying about this science fiction romance: A futuristic romance that will make the reader laugh, cry and sigh, Shamara has all the earmarkings of a keeper. Leslie Trampusch, PNR sGreat sci-fi romance! With Shielder, Shadower, and now Shamara, Catherine Spangler has earned a high place among the elite of the science fiction romance sub-genre. Harriet Klausner If youve never read a futuristic romance, start with Shamara. It is solidly constructed, well written, and dynamically paced. Jacqueline Lichtenberg Shamara by Catherine Spangler is an outstanding read. With the perfect blend of psychic gifts, space travel and old fashioned romance, Spangler creates a novel readers will find impossible to put down. . . . The carefully balanced characterizations and action make Shamara a winner of the WordWeaving Award of Excellence.
