variation of "classic" tropes Von twohearts I'm not a native English speaker, so please excuse my mistakes in spelling and grammar. I really, really liked this book. Most of the classic tropes of the British style cuckholding novels are included here: there is a bored Housewife in her 30s, a handsome, but sexually not really breathtaking husband/Cuckold, a female Mentor who is into femdom/cuckholding, and a well-endowed Bull, of course. There are also two minor roles, a young accomplice and the child of the married couple. But there is also a story going on beyond the typical cuckold novel about the Housewife and the Mentor subjugating the Cuckold together. Each of the three main protagonists has a different plan and a different motive. The Housewife wants to lead a life of a sexual dominant Hotwife while keeping her marriage. She wants to dominate and humiliate her husband, but also wants to keep her emotional and spiritual connection to him. She threatens to divorce her husband and leave him, taking their daughter with her, to blackmail him. The Cuckhold wants to end the humiliation, but he also (at least at first) wants to keep his marriage and particularly his connection to his daughter intact. The Mentor is the really evil one, who secretly plots to destroy the marriage and take the Cuckhold as her personal plaything afterwards. I liked the end, though there were some very sad (and some even shocking) parts in it. I also enjoyed the development of the story. I'm reading cuckold novels from the perspective of a heterosexual submissive to Females, so I'm not really interested (even sick of) in the maledom aspects of cuckoldig (or crossdressing/sissification, btw). There are few/no parts of these aspects in the novel, which is mainly about female domination. So if you are interested in a femdom-relationship story, this is a novel for you. There are not many explicit erotic scenes, and some rituals typical for this kind of fiction are only mentioned in the talking between Mentor and Hotwife, but a few scenes are very good. Much too often, cuckold/femdom novels concentrate only on the cucks/slaves suffering and embarrassment, but in this novel, the author describes the Hotwife's feelings, too. For example, the author lets the reader partake in the Hotwife's empowerment as she faceslaps her cuckolded husband for the first time, which I really loved. Why I only gave 4 stars: SPOILER: As I said before, I loved the conclusion of the story. I like stories about a cuckolded slave escaping (or being rescued out of) an abusing femdom relationship, but also accepting his submissive nature and perhaps starting a loving femdom relationship. But I really hated how the cuckold in this novel shouted at his wife at the end, and even used physical force against the Mentor (who I really did not like). I also felt sad for the Hotwife who was left by her husband. I felt very uncomfortable about the child and disliked the fact that there is an underage character in a kinky erotic story like this, even though the protagonists do all they can to exclude her from their activities.

Kurzbeschreibung Maria Wain-Vincent brings us a tale of a loving wife whose head is turned by a neighbour and her descriptions of her husband's superior endowment. An endowment the neighbour is more than willing to let the frustrated wife use so long as she is also willing to turn her own handsome and less than well-endowed partner into a servant and cuckold. Story Length: 38000-Words CONTAINS EXPLICIT ADULT MATERIAL
