**Von Catherine Spangler : Shielder A Science Fiction Romance (Shielder series Book 1) (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Shielder A Science Fiction Romance (Shielder series Book 1) (English Edition):

a force in Futuristic Romance. The genre was just getting its legs. Spangler helped define and set the standard for Futuristic Romance, making it the hot category it is today. She picked up a RITA (Romance Writers of America Award) nomination this year for her Shadow Fire, the latest in the Shielder series. And those of us who have devoured her brilliant tales applauded, but were not surprised by this nod. It's long over due! The Controllers, the rulers of this quadrant of the universe, were systematically destroying the Shielder colonies. They have unleashed a killer virus designed to wipe out the Shielders. A pocket of survivors had living on Liron. Nessa dan Ranual volunteers to be a live carrier of the virus in an attempt to reach the medical laboratory on Sonoma colony, with the hope the Shielders find a cure for the disease killing her people. She's under the gun time wise. She has a month before the virus will kill her. When Chase McKnight picks up Nessa's distress signal, he thinks he can simply drop her off at the nearest Star Base and that will be the end of it. Chase is a Shadower, a bounty hunter for The Controllers. Nessa fears trusting a Shadower, a man paid to hunt down her kind, so she hides that she is a Shielder and how urgent her reaching Sonoma colony in time is. Nessa is forced to betray Chase in her drive to reach the planet, turning the lover into a hunter as he tracks her down. Spangler gives you a slam-bang ride across the Universe, into vivid worlds with a strong premise that delivers on all levels. It's a book you won't be able to put down once you get into the demanding story. It's not an "easy" read, challenging you to enter into Spangler's brilliantly conjured Futuristic world, where good and evil clash and passions rule. Utterly magic!

Von Ein Kunde Shielder's non-stop action and explosive passion will leave your lungs gasping for oxygen and your heart racing! Two characters so right for each other, and yet with so much to overcome before they can accept each other's love, and give their own in return, have never been written. Ms. Spangler has done a beautiful job pairing up a reluctant hero, a heart-wrenchingly courageous heroine, and vivid secondary characters. The emotional roller coaster she sets them on will take you to other worlds...and make you feel right at home. People, after all, are still people, no matter what galaxy they come from. Don't miss Shielder!

Kurzbeschreibung Science Fiction Romance from RITA nominated author! The Controllers have engineered a virus that is killing Shielders. In the hopes of finding a cure, the Shielders need a human host to get the deadly virus past Controller checkpoints and to a medical lab on the planet Santerra. With her people facing extinction, outcast Nessa dan Ranul volunteers to be the host and is injected with the virus. She has only four weeks to make it to Santerra before it kills her. When her ship breaks down in deep space, she's rescued by her most dangerous enemy a shadower, a bounty hunter who tracks down Shielders. She can't tell him the truth about her dilemma, or he will turn her in to the Controllers. Shadower Chase McKnight has an agenda more pressing than claiming bounty rewards vengeance. He doesn't have time for a homeless waif who ignites emotions he buried long ago. He refuses to allow anything to deter him from his mission, which results in traveling away from Santerra while the time bomb inside Nessa is ticking down. But she doesn't dare trust this man who is an enemy of Shielders. Their secrets and agendas don't prevent the growing attraction between them, even as they fight their individual demons even as time runs out for Nessa. Only love can bring them full circle, offering Chase redemption, and the chance to save Nessa and ultimately, her people.
