Von Terrill Lee Lankford : Shooters (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Shooters (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. A man's sordid pat comes back to haunt him Von Ein Kunde SHOOTERSTerrill Lankford Forge, Mar 1997, \$20.95, 275 pp. Nick Gardner appears to have a piece of the good life. He owns a fancy home and car, has a prestigious job, and plays around with many beautiful women. Yet for all his possessions, Nick remains the original ice man, a person whose feelings for anyone including himself are frozen. Nick takes home a fancy party girl for a night of sexual pleasures

ranging from fellatio to intercourse to bondage. The next day he learns that she has been brutally murdered and he is the prime suspect. Nick realizes that if he does nothing, he will be charged with murder since there is plenty of evidence to link him to the crime. He searches for the truth, unaware that his journey tightens the trap that has already engulfed him. The answers he finds propels him into a world that he fled from a long time ago. Nick returns to this underworld of drugs and pornography, a place where murder and madness wait to embrace him. SHOOTERS is not a book for the faint of heart since it is very graphic in terms of its violence and dark sexual encounters. In spite of this, or perhaps because of this, the novel is a hypnotic work that allows the reader to suspend belief and become totally absorbed in the mesmerizing storyline. Harriet Klausner0 von 0 Kunden fanden die folgende Rezension hilfreich. SIMPLY ENTERTAINING! Von Kevin Tillery The only reason why I read this book is b/c i read Angry Moon first and I was impressed by that and this kept me awake 4-sure. I'm awaiting another thriller by Lankford but I haven't heard word if another one is coming soon. Shooters is about an ex-porno cameraman that changes his lifestyle and takes pics for magazines and of models. But then his life turns for the worst when he's framed and forced back into his formal life to clear his name. The ending really appealed to me and I liked it b/c it was different than most typical endings. Terrill Lankford really changed concepts and issues in this one compared to Angry Moon (haha- this one's a lil' bit more realistic) but they're both well-written. I don't understand why anyone wouldn't like this book. Well, I can't judge for them so I'll let them have their own opinion but I hope I can convince other readers to cop this one. ~Special KO von 0 Kunden fanden die folgende Rezension hilfreich. straight shooting dialogue Von Ein Kundethis was a great, easy read. i am a big fan of murder/mystery books, but find that many of them are just to complicated to follow. characters get jumbled up and you spend half your time sayng ok now who's this guy again and what's he got to do with the story. Shooters is a fast paced, gritty novel with a seemingly unfeeling main character born without a heart. However, Lankford has created a multi-dimensional leading man that is not often found in this genre. this is perfect summer beach reading, when all you're looking for is a few hours of enjoyable reading. I'm looking forward to more from this new author.

KurzbeschreibungWARNING: Adult situations and rough language run amok in this book. If this sort of thing offends you, please look elsewhere for your reading pleasures. Nick Gardner is a fashion photographer of the highest caliber. His erotically-charged photos grace every major magazine in the world. He is a superstar shooter in a town filled with supermodels, desperate wannabes, and burned-out has-beens. His peers consider him cold and impenetrable. A loner who will let no one see beyond his carefully crafted facade. See, Nick has a secret. Another identity, buried for more than a decade. An entirely different career that has been hidden and denied. And a murder. From the sun-bleached shores of Malibu to the pages of Vogue and the porno empires headquartered in the San Fernando Valley, Shooters reveals the naked truth behind the twin worlds of high fashion and hardcore, where the difference between the two can be a well-chosen shadow or a brazen shaft of light. "Fashion photographer Nick Gardner may uncover a lot of models, but he's keeping a dark secret under wraps. Set in glitzy L.A., written by a veteran screenwriter/producer/director, and optioned by Tristar, this is the perfect Hollywood novel." -Library Journal "Lankford breathtakingly tosses the reader into a Hollywood snake pit that is at once compelling and repugnant." -Dallas Morning News "Shooters cooks! This is a blood thriller that will vibrate your vindaloo! Terrill Lankford has crafted a truly bitchin' novel that will keep you up nights howling at the moon! Read it or be deprived!" -James Ellroy "Shooters is excellent. It grabs you on page one and won't turn you loose." - Robert B. Parker "Shooters' is a dark, speeding ride on LA's fast lane. It's like you're watching a car accident. Once it starts to unfold you can't look away. You're hooked." -Michael Connelly "Shooters marks a fine noir debut by Terrill Lankford. Welcome to the land of twists and turns." - Gerald Petievich "A witty, bawdy, staccato, suspenseful, and very hip update of Nathanael west's Day of the Locust. not just an expos of the L.A. scene, the wacky fashion world, the porn world, the recreational-druggie culture, but also a perceptive look into ALL of us inhabiting the 1990's." -Gary Jennings "Fiction doesn't get much more hard-boiled than Shooters, a nihilistic view of Los Angeles that's darker than the back of the moon." - David Freeman "This book starts with an orgasm at 70 MPH in the front seat of a Lamborghini Diablo on Sunset Boulevard and ends with a firestorm on The Pacific Coast Highway, and in between has more serious sex, serious drugs and serious rock'n'roll than you could shake a stick at, an old murder, several new murders and a search for truth through LA's sleazy heart... Written at a speed that seems to suggest that someone put amphetamine in his tea, Terrill Lankford (Couldn't invent that name) has written a novel that is both unpleasant and riveting, and like the sensation junkie that I am, I'm certainly going to go back and investigate his other novels." - Mark Timlin "Lankford's writing is gritty, fast moving, and very dark. Damn, it's good." -Rick McMahan, Over My Dead Body! KurzbeschreibungWARNING: Adult situations and rough language run amok in this book.
