KurzbeschreibungFrom USA Today best selling suspense master Brett Battles comes the book that started it allSick, the first book of the Project Eden thrillers.Daniel Ash wakes after midnight to the cry of his daughter. Just a bad dream, he thinks. Shes had them before. Yet he cant help but worry when she cries out again as he pads down the hallway. Stepping through her doorway, he expects to find her sitting up in bed, frightened by a nightmare.But the nightmare is his. Its real. And it's just beginning...Something is burning Ash's daughter alive. Something horrible that is spreading beyond the walls of their home, and taking no prisoners. Thirty seconds later, Ash will discover his daughter isnt the only one in his family infected, and as his world spins, coming apart at the seams, a team of armed men in biohazard suits bursts into his house. But these arent the good guys. They havent come to save Ashs family. Theyve come to separate them, to finish what they started.The problem is Ash refuses to disappear. He wants only one thing: to find those responsible. Because humanity is on the brink of extinction.And man is pulling the trigger.The Project Eden saga has already garnered over 675 5-star reviews.
