Magical and it makes you feel you belongVon Jil AimeTo all my english-speaking friends and book-lovers - if you are looking for a fantastic and mystical book series that is very different from what you've read so far, go and fetch this one. Not the typical vampire stories there are other mystical creatures out there that make this story so worth telling.I simply love it!The story robbed my heart from the very beginning...a sweet young American girl (17y) caught in the mysteries of love and Scottish myths! One surprise and secret hits the other. All set in the magical landscapes of Scotland. Emma is forced by destiny to move to the Isle of Skye and leave her past behind but that past is going to get back at her in ways she have never thought of. She isnt just the ordinary girl she always thought shed be. There is more to her story than the eye can see and if it wasnt for Calum (the magical love of her life) shed probably drown in sorrows. He gives her sense and a reason to live after she thought shed lost everything. They both save one another in this world in all ways possible. I have to agree with Anja Vuksanovic-lambert a gem among stones!Marah Woolf is one incredible author! Her story is set in a truly beautiful place and her style of writing is the most detailed and perfect description Ive ever known. I felt like I was right there on the Isle of Skye and being part of this adventure. Her stories are fascinating and inspiring! She is thoughtful, talented and sweet and I thank her for the SilverMoonSaga.--Jil Aime2 von 3 Kunden fanden die folgende Rezension hilfreich. SilverMoonLight - when love will bind you togetherVon J. SchalauI may spoiler but I'll try not to!Emma, the protagonist of this series, is a teenager, living in America with her mother, who suddenly dies in a car crash. Because of this circumstance Emma is moving to her uncle Ethan, who lives on an island in Scotland. Although she has gone through emotionally hard times, she starts to feel comfortable in the house and the new environment. She gets to know Calum, whom she finds attractive and interesting on first sight. Calum is the male protagonist of the series and encircled by a supernatural aura. He doesnt seem to care about Emma at all and doesnt bother to let her know that. Still they have a lot of scenes in which they have to be in contact and work together. They fall in love, which is complicated (I wont tell why!), and a back and forth between their relationship development starts.SilverMoonSaga is about a love story that has to figure out how to manage love when there is more than the human race. You could equalize this topic with todays world, in which some cultures only allow their folk to marry within their culture or religion.Scotland really fits the mystical and fantastical world that Marah Woolf created. The fantasy elements start to develop during the first book until you are totally soaked in. Her style of writing is flowing and lively.Because of the age of the protagonists the book basically aimed for teenager and young adults, but if you are a grown adult and love fantasy worlds, you will probably love that series as well.I cant wait to read more of her.2 von 10 Kunden fanden die folgende Rezension hilfreich. Fahle Geschichte, oberflächlich verfasstVon VKObwohl ich sagen muss, dass ich die 3-teilige BookLess Saga der gleichen Autorin absolut empfehlen kann und sie frmlich verschlungen habe, war ich von diesem Buch entuscht. Ich habe es dennoch fertig gelesen, in der Hoffnung, dass sich meine Meinung noch ndern wrde, was nicht der Fall war.Der Text ist relativ oberflächlich verfasst, in die Charaktere kann man sich eher nicht hinein versetzen. Die Story ist erstaunlich flach und hnelte den Twilight Bchern/Filmen inhaltlich sehr. Die Geschichte ist zwar an sich sehr interessant (es geht um Sagenfiguren/Mrchen/Wassermnner) und darum habe ich mich umso mehr gefreut, ein Buch mit diesem Inhalt zu finden, aber die Erzhlung war leider durch und durch entuschend. Die zwei weiteren Teile habe ich nicht gelesen.Allerdings mchte ich noch einmal betonen, dass Personen, die ein wenig fantasievolle Geschichten mgen, die BookLess Saga sicherlich lieben werden.

KurzbeschreibungThe SilverMoonSaga starts now"Even the very first time I saw you, I had the feeling that you wouldnt be good for me."Not even Emmas worst nightmares could have prepared her for the dramatic change that takes place in her life. After the sudden death of her mother, she has no choice but to go and live with her Uncle and his family fom Washington on a sleepy town Portree.The last thing she expects is to fall in love there. From the very first moment she meets Calum, his mysterious aura captivates her. He casts a spell on her, and even his seeming disinterest does little to change this. His contradictory behaviour only adds to his allure. But before long this fassade begins to crumble, and eventually even he gives in to his feelings.When he reveals his true identity to her one day, she flees from him. But its too late, for she has already fallen head over heels...A fantastical, mythical book with fascinating creatures that anyone would love to encounter. Immerse yourself in the story of Emma and Calum.Readers comments:One word for this book: amazing. I really do loved the story! SophiSmileyI was transfixed by the characters and supernatural ambience, which sucked me into a story of fascinating premise and originality. LucindaMarah Woolf is one incredible author! Jil AimeI love the story about Emma, Calum and the Shellycoats so much and read the book in one night.
