Northrope. Celia's mother educates her in the art of pleasure, but instead of following in her mother's footsteps, Celia flees and takes refuge with friends. Five years later her mother dies and Celia inherits all of her property, including a small house on Wells Street, and huge debts. Celia also inherits Jonathan Albrighton. The gentleman is a tenant and dwells in one of the attic chambers. Due to Jonathan's contract, she cannot evict him, yet she fears his presence could completely ruin her reputation - which is tarnished enough already. However, Jonathan only uses the attic chamber during the rare times he must be in London. Since he enjoys his privacy, Jonathan has never even told his friends where he resides and he uses a discreet method of entry to the house. The man refuses to heed her hints that he move elsewhere. It is an awkward arrangement, but Celia does not have too much time to dwell on it. Celia is in business with her good friend, Daphne. The small house is an ideal spot for transporting, selling, and the deliveries their flowers. Problem is that the debts are still mounting. Celia is forced to consider embracing the profession for which she was groomed. At the same time, she has no idea that Jonathan is conducting a secret investigation into her mother's mysterious activities. ***** FIVE STARS! It is always a pleasure to spy a new story by Madeline Hunter whenever I haunt the local book stores. This is the third title of a quartet. (Somehow I have missed the first two titles, which I intend to rectify shortly, so I can tell you from experience that you do not HAVE to read the first two titles in order to thoroughly enjoy this tale.) The author's creative writing style is so vividly detailed that I could almost see the fashionable people strolling along the street and smell the flowers as Celia arranged them in the front room. The characters are full of life and have well developed backgrounds. Full of humor and clever dialogues, I never grew bored. I also found the spicy romance between the main characters to be as riveting as the investigation plot. An unexpected twist added a bit of surprise as well. Brava! *****Reviewed by Detra Fitch of Huntress Reviews.
