could give this book more than 5 stars Von Circe I have this weird OCD where as soon as I reach page 50 of a book - 20 percent for e-books, I need to read the end. I think sleeping roses has a pretty good end. It is a beautiful story and even if the beginning is a bit slow, keep turning the pages you do not want to miss this! I do not normally feel the need to make a book review but this book truly deserves 5 stars. Enjoy!

Kurzbeschreibung "I'd give this book ten stars if had them, it was really that good." - The Books Debut "This book will keep you reading with a very unexpected twist..." - Cyruss1264 Her mother told her its the little things that make a relationship last. The sweet note left on a pillow. A flower tucked in with lunch. A romantic phone call or a text filled with kind words. Sophie shouldve realized its the little lies that show the true colors of a man. She didnt. And now shes paying for it a little at a time. His harsh words between whispers of love. A slap on the face before taking her into the bedroom. Its the little things, the little lies that just might kill Sophie.
