Von Lindsay Buroker : Snake Heart (Chains of Honor Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Snake Heart (Chains of Honor Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. A great read, but not the book to start reading this seriesVon -KundeDisclaimer: I recieved an advance copy of this book in exchange for a review once it is published. I accepted, because I would have bought and reviewed the book

anyways. More important: this is the second book in a series that in itself has its start with a YA trilogy of novels introducing not only the main setting (lands, countries, societies, issues therein) but also the main characters and their dynamics. The trilogy in question is of course, the "Swords and Salt - The Complete Series", a lovely, comparatively quiet (for Lindsay Buroker books) coming of age story that jump-starts the Chains of Honor series, which is less YA in feeling and more along Buroker's outstanding Emperor's Edge series. So if you haven't picked up at least "Warrior Mage", the first book in the "Chains of Honor" series, a lot of things may appear disconnected. Frankly, this is not the book to start reading this series, start with "Warrior Mage" or even better "Swords and Salts" and progress from there. Knowing the earlier book(s) of this series however, makes "Snake Heart" an engaging read with characters I came to care about, the occasional weird sidekick, technology, magic - both nicely limited in what is possible and what isn't - and a plot that boils down to a breakneck treasure hunt for something that a lot of people have a (more or less justified) claim on. However, as with the first "Chains of Honor" book, I found the side characters more interesting than the "official" main lead. The book gets a solid 4 stars from me, because it kept me entertained, had me laugh out loud a couple of times on the train, and made me curious about what happens in the next installment.

0 von 0 Kunden fanden die folgende Rezension hilfreich. Die Fortsetzung enttäuscht nicht. Spannende Fortsetzung der Geschichte. Besonders gut gefällt mir die Entwicklung, die der unsichere 18-Jährige macht - sowohl in seinen persönlichen Einstellungen als auch in der Beherrschung der Magie. Von Dak erfährt man auch mehr (allerdings keine großen Überraschungen, wenn man die anderen Serien gelesen hat), Lakeo läuft diesmal nur nebenher. Das Ende kann man wohl als Cliffhanger sehen - ich finde es aber nicht störend.

Kurzbeschreibung Tasked with an impossible mission, hunted by the very people he wants to protect, Yanko White Fox is the only one who can save his nation from famine and anarchy. Armed only with his fledgling skills as a wizard and accompanied by allies he's not sure he can trust, he must track down an ancient relic before his enemies find it first. But countless obstacles stand in the way, including his mother. The deadly and infamous pirate Snake Heart cares nothing for the family or the sons he abandoned, and wants the artifact for herself.
